Projektinformation

Titel: Neue europäische Standards im Kontext der reformierten Gemeinsamen Agrarpolitik der EU

Projektnummer: 2012-1-SK1-LEO05-04199

Jahr: 2012

Projekttyp: Innovationstransfer

Status: abgeschlossen

Land: SK-Slowakei

Marketing Text: Das Projekt zielt darauf ab, eine Online-Trainingsprogramm für Akteure im ländlichen Raum ihnen komplex Informationen auf dem Gebiet der neuen reformierten Gemeinsamen Agrarpolitik zu schaffen.

Zusammenfassung: Der neue Programmplanungszeitraum 2014 – 2015 wird wesentliche Änderungen in der Gemeinsamen Agrarpolitik (basierend auf zwei Säulen) bringen, die schwerwigende Wirkung auf die Wirtschaft vor allem von größeren Begünstigten sein sollen . Die Deckelung der Zahlungen wird eine Reduzierung der Zahlungen für die meisten Begünstigten bedeuten, weil sie – aufgrund größerer der Volkswirtschaften, die nicht erforderlich das gleiche Niveau an individueller Beihilfe für das Ziel der Einkommensbeihilfe abforden. Das System für die meisten Begünstigten wird eingeführt, wo die Unterstützung der Stufe allmählich verringert und schließlich verschlossen wird, um die Verteilung der Zahlungen zwischen den Landwirten zu verbessern. Ein solches System sollte jedoch rücksicht auf entlohnter Arbeit nehmen, um die überproportionale Auswirkung auf große Agrarbetreibe mit hohen Beschäftigungszahlen zu vermeiden. Darüber hinaus werden die Mitgliedstaaten verpflichtet, einige Kriterien einzurichten , um missbräuchliche Operationen von Bauern versucht, Auswirkungen der Begrenzung zu umgehen vermeiden. Die CAP-Reform wird eine neue Komponente innerhalb der ersten Säule bringen - die "Ökologisierung", die sicherstellt, dass alle EU-Landwirte in den Eingang der Unterstützung über die Anforderungen der Cross Compliance zu gehen und liefern Umwelt- und Klimavorteile als Teil ihrer täglichen Aktivitäten. Alle Betriebe werden Umwelt- und Klimavorteile durch Anbaudiversifizierung, Dauergrünland und Grünland Wartung und durch ökologisches Handeln liefern, während Cross - Compliance immer noch die Direktzahlungen untermauern wird. Die reformierte CAP und seinen neuen Komponenten kommen in Kraft seit 2014 und bringt auch neue Herausforderungen und Risiken. Um Zahlungen Schnitte und finanzielle Verluste in Betrieben zu vermeiden, ist es notwendig, Akteure im ländlichen Raum vorzubereiten, um diese Änderungen durch interaktive Bildungsprogramme zu nehmen.

Beschreibung: Das Arbeitsprogramm konzentriert sich auf einige Schlüsselaufgaben:
1. Aufgrund der lokalen Dokumente ausgearbeitet von den Partnern für jedes Land die commmon Territorial Vergleichsdokument wird created.The Dokument analyzis der Situation der Umsetzung der Grundsätze der GAP in die landwirtschaftliche Praxis zu reflektieren, während Änderungen für neue Programmplanungszeitraum (2014-2020) aufgenommen werden.
