Développement du module de l'aptitude professionnelle des adultes handicapés-DEVOMDA

2012-1-TR1-LEO05-35148

http://www.adam-europe.eu/adam/project/view.htm?prj=10381

Information sur le projet

Titre: Développement du module de l'aptitude professionnelle des adultes handicapés- DEVOMDA

Code Projet: 2012-1-TR1-LEO05-35148

Année: 2012

Type de Projet: Projets de transfert d'innovation

Statut: En cours

Pays: TR-Turquie

Accroche marketing: DEVOMDA

Résumé: In DEVOMDA, we observe and put in evidence basic and key competencies of disabled adults in job contexts; improve the validation of non-formal and informal learning outcomes,taking into account the different needs of adult disabled learners. Recognise the observed and evaluated competencies in order to improve social insertion and job insertion of disabled people: Guidance & counselling action, improve the validation of non-formal and informal learning outcomes, taking into account the different needs of adult disable learners; recognise the observed and evaluated competencies in order to improve social insertion and job insertion of disabled people: Guidance & counselling action.
Starting from that activities (that represent the preliminary phases of the project) the partner will work together in order to compare their best practices with different European framework, find some new activities that could address their methods towards shared European dimension, and test the chosen changes in their daily job share recommendations for the mainstreaming for organization that work in each partner's country context on a different level in the field of disabled adult long life learning.

Description: The project aims
• to increase the number of disabled adults able to work in suitable employment, providing skills for their support workers and their employers
• to transfer innovative training courses in skills for the employment of disabled adults,
• To produce a face to face, distance learning, and ICT based materials that can reach individuals in government offices and clinics, at colleges, and in employers' premises
• To incorporate skills for disability case-management and educator and inter-agency working, sensitive to the local cultural context and include employment guidance techniques
- observe and put in evidence basic and key competencies of disabled adults in job contexts;
- improve the validation of non-formal and informal learning outcomes, taking into account the different needs of adult disabled learners;
- recognise the observed and evaluated competences in order to improve social insertion and job
insertion of disabled people: Guidance & counselling action
Starting from that activities (that represent the preliminary phases of the project) the partners will
work together in order to compare their best practices and modules with different European framework,
The partners will carry out local needs assessments, adjust & transfer, pilot and evaluate the course, working with employers, employment services, welfare, education and social services department in the countries. They include
• An online an e-learning services provider, to guide on e-learning and VET integration, run trials,
• A national disability NGO, to involve users, run trials and to provide educational expertise.
• A provincial Education Directorate, to co-ordinate public agencies and support VET integration
• A regional state Disability Employment Organisation, to contribute to

Information sur le projet

understanding of inter-service co-operation and to run trials.
• A career counselling and guidance company specialising in support for disabled adults to contribute to the transfer and run trials
• A Disability Employment research and consultancy company to lead the project and contribute the original material.
The project will result in a VET-integrated and tested course, based on researched evidence for the design and effectiveness, for public sector workers and one for employers, an E-learning platform for delivery of training alongside face to face teaching, a forward plan for ongoing exploitation of the results by partners and others.The partners will share a cooperation document in order to create a permanent European network focused on theme related to disabled adult long life learning.
