ELIEMENTAL : éliminer les obstacles à l'entreprenariat

527949 - LLP-2012-UK-Leonardo-LMP

http://www.adam-europe.eu/adam/project/view.htm?prj=10395

Information sur le projet

Titre: ELIEMENTAL : éliminer les obstacles à l'entreprenariat

Code Projet: 527949 - LLP-2012-UK-Leonardo-LMP

Année: 2012

Type de Projet: Développement d'innovation

Statut: Accordé

Pays: EU-Projets centralisés

Accroche marketing: « Les émissions “The Dragons Den” et “Apprentice” donnent une image erronée du monde de l'entreprise, selon des universitaires » (Guardian, 31 août 2012). ELIE (www.elie-project.eu) a été financé par le programme d'apprentissage tout au long de la vie et Erasmus en 2010. L'une des principales conclusions est que les stéréotypes relatifs aux entrepreneurs et au comportement entrepreneurial constituent un obstacle à l'entreprenariat, ce qui a donné lieu à une importante couverture médiatique et à un nouveau projet de suivi dirigé par le Dr Carolyn Downs de l'université de Lancaster ELIEMENTAL.

Résumé: Le projet ELIEMENTAL s'inscrit dans le sillage d'ELIE ; ce projet de recherche appliquée est réalisé au Royaume-Uni, en Pologne, en Grèce et en Roumanie, et il ciblera les groupes qui sont les moins représentés parmi les PME en création. Nous explorerons les obstacles sociaux et culturels à l'entreprenariat, ainsi que des moyens d'offrir un enseignement accessible en matière d'entreprenariat, afin de surmonter ces obstacles. Nous travaillerons en collaboration avec nos groupes cibles sur ce projet, dans le cadre d'une approche de recherche et d'action participatives, afin d'élaborer des solutions innovantes, adaptées et fondées sur la communauté.

Description: L'importance des PME pour la croissance économique dans l'UE est reconnue dans les dispositions du « Small Business Act » pour l'Europe (2008) et dans la stratégie de Lisbonne pour la croissance économique. La Commission européenne (entreprises et industrie) note toutefois que « certains groupes dans la société, tels que les personnes issues de minorités ethniques, sont confrontés à des difficultés supplémentaires lorsqu'ils tentent de créer des entreprises ». L'UE insiste par ailleurs sur la nécessité d'aplanir les obstacles à l'entreprenariat (http://ow.ly/8Obz8). Encourager les groupes sous-représentés à adopter l'esprit d'entreprise est une priorité politique de l'UE. ELIEMENTAL offrira un cadre qui contribuera à aplanir les obstacles sociaux et culturels à l'entreprenariat parmi les groupes sous-représentés au sein des nouvelles PME dans l'UE. Ce projet pourra également servir de modèle dans l'UE.
Nous tâcherons d'atteindre cet objectif en générant de nouvelles connaissances quant à la nature des obstacles socio-culturels à l'entreprenariat, en élaborant une trousse à outils de formation en ligne et fondés sur ces connaissances qui permettra d'accéder aux mentors d'ELIEMENTAL et à un large éventail d'activités d'apprentissage identifiées pendant le projet. Cette trousse à outils servira de base à un apprentissage guidé qui pourra ensuite prendre la forme d'une qualification de base visant à fournir aux entrepreneurs potentiels les compétences et les connaissances nécessaires pour lancer une entreprise.

Thèmes: ** Marché du travail
** Développement durable
* Formation tout au long de la vie
* Formation ouverte et à distance
* Orientation professionnelle
* Entreprise, TPE, PME
* Accès pour les personnes moins favorisées
* Formation initiale

Sectors: * Activités des Ménages en tant qu`Employeurs; Activités Indifférenciées des Ménages en tant que Producteurs de biens et Services pour Usage Propre
* Santé Humaine et Action Sociale
* Autres Activités de Services
* Information et Communication

Types de Produit: Modules

6 Final Public Report

Produit 'Website'

Titre:	Website
Type de Produit:	Site Internet
Texte marketing:	This is the main source of information about our project. It includes sections where materials can be downloaded.
Description:	The website includes sections for current project news, publications (available materials include project newsletters, project brochure, detailed reports on WP4 and WP5, the Public part of the Interim Report to the Leonardo da Vinci team see http://www.eliemental.org/main/publications-level-one). We also have sections on the website for individuals and organisations wishing to take part in the project. There are links to our Facebook and Twitter pages and a form for contacting the project.
Cible:	Charities and statutory organisations working with out project target groups, enterprise educators, individuals within our target groups.
Résultat:	The website has increased interest in the project and our use of Google Analytics reporting tools has helped us identify which sections are of most interest to our traffic. As a result we have modified and updated material regularly.
Domaine d'application:	As the project moves into part two the role of the website will increase in importance as learning materials are uploaded here for people to develop their soft skills for enterprise.
Adresse du site Internet:	http://www.eliemental.org
Langues de produit:	anglais

Produit 'Project Information Brochure'

Titre:	Project Information Brochure
Type de Produit:	Autres
Texte marketing:	A leaflet that is used to provide information to people interested in the project.
Description:	Our leaflet was carefully designed and tested amongst our target group so as to get the text and images right.
Cible:	
Résultat:	We have distributed leaflets at many events (also listed here) and have been able to leave leaflets in a wide variety of places accessed by our target groups. The leaflet has been translated into partner languages and also distributed in all partner countries. It is available to download from our website.
Domaine d'application:	As a means of informing our target group about the project. Many people in our target groups do not have access to the Internet so our leaflet is really important.
Adresse du site Internet:	http://www.eliemental.org/main/publications-level-one
Langues de produit:	

Produit 'Project Newsletters'

Titre:	Project Newsletters
Type de Produit:	Autres
Texte marketing:	Produced twice a year to provide information about the project to a wide range of stakeholders.
Description:	This contains important news of the project activities, but should be read in conjunction with the website which holds more detailed updates. It is translated into all partner languages and distributed electronically with many thousands being sent out for each issue. We produce some hard copies, mainly for use with marginalised social groups participating in the project who do not have Internet access.
Cible:	Policy makers, SMEs, third sector organisations and public bodes working with our target group. members of our target groups (socially maringalised groups), academics.
Résultat:	We have generated a lot of contacts through our distribution of the newsletter. In the UK our newsletter was the catalyst for the involvement of Public Health England in our project and also for reaching Job Centre + who wish to roll out our materials nationwide at the end of the project.
Domaine d'application:	As a tool to communicate with stakeholders
Adresse du site Internet:	http://www.eliemental.org/main/publications-level-one
Langues de produit:	

Produit 'Community Access Points Report'

Titre:	Community Access Points Report
Type de Produit:	Autres
Texte marketing:	This report shows how to identify good community access points. The methods described can be applied to a wide range of different communities.
Description:	For many people in groups vulnerable to social exclusion traditional places for finding information about training are not accessible, Social and cultural barriers exist that make it almost impossible for them to access libraries, colleges, official buildings etc. We therefore set out to establish what other places could be used by our target groups to find out about our enterprise education resources. We did this using volunteer researchers from within our target groups and have identified a number of places, some of which are very surprising.
Cible:	academics, VET and FE providers, community groups, third sector organisations. .
Résultat:	Important community access points vary between different communities. For example, for recovering substance abusers then places need to be safe, where they will not encounter current substance abusers. For older women a good place will be friendly, and not require too much money, for NEETs a community place does not have adults who will object to them being there. We have identified a number of places in each country and have permission from those places to site notice boards that will display materials and information while individuals in each of our places will act as a contact point to talk to people about the project and support them with taking our course.
Domaine d'application:	As a tool for anyone wishing to reach out to groups vulnerable to social exclusion.
Adresse du site Internet:	https://www.youtube.com/watch?v=4IPBdgftVDA
Langues de produit:	anglais

Produit 'Identifying Socio- Cultural Barriers to Enterprise WP4 Report'

Titre:	Identifying Socio- Cultural Barriers to Enterprise WP4 Report
Type de Produit:	
Texte marketing:	This detailed report unpacks the evidence on which our learning materials are based. It includes information on how to identify the varying soft skills gaps in our target groups.
Description:	Users of this report will find useful information on the social and cultural barriers that affect employability and the ability to move into enterprise amongst groups vulnerable to social exclusion. From this report we are developing an additional product (not in the original bid) which is a soft-skills gap toolkit that will be available in Jan 2015.
Cible:	Academics, teachers, VET institutions, FE institutions, policy makers.
Résultat:	This report has been the foundation of our module development and learning outcomes for students.
Domaine d'application:	As a tool to understand the soft skills shortfalls that hinder enterprise and employability more generally.

ELIEMENTAL: Breaking Down Barriers to Enterprise

Date	01.12.2015
Description	The Eliemental project has been three years in the making and has seen a partnership of universities, businesses and enterprise support agencies create an EU-wide qualification in enterprise and employability alongside electronic resources to support the delivery of the qualification. At this FREE event we will have a range of high-profile speakers from across Europe including business owners, MEPs and academics alongside a number of workshops in which we will share the Eliemental approach to developing enterprise in disadvantaged communities. This approach has gained tremendous momentum and has helped communities in the UK, Romania, Greece and Poland tackle a number of challenges within hyper-local areas, as evidenced by one trainee who commented recently: "Without the Eliemental enterprise training, I would not have done my business plan so well...I've tried it before on other courses and never managed to do it." The project team will make all of their resources available to attendees of this event and there will of course be food and drink provided. Workshops and discussion will centre around the use of Community Access Points; safe-spaces within communities used to develop training, soft-skills sessions and entrepreneurial mind-sets. Whether you are a business owner, an enterprise educator, business support organisation or a new start-up there will be plenty of unique activities to support you on your journey and exclusive access to Eliemental’s educational resources.
Cible	Interest groups: enterprise educators, 3rd sector organisations working with groups vulnerable to social exclusion, research academics, policy makers, employment services and advisers, municipalities, civil servants and vocational educator or advisor, SME business owner, business support organisation and/or new start-ups.
