OUTIL AMELIORER LA TRANSPARENCE DES COMPETENCES PROFESSIONNELLES EN LANGUES ETRANGERES

LLP-LDV-TOI-2009-LT-0042

http://www.adam-europe.eu/adam/project/view.htm?prj=6282

Information sur le projet

Titre: OUTIL AMELIORER LA TRANSPARENCE DES COMPETENCES PROFESSIONNELLES EN LANGUES ETRANGERES

Code Projet: LLP-LDV-TOI-2009-LT-0042

Année: 2009

Type de Projet: Projets de transfert d'innovation

Statut: Accordé

Pays: LT-Lituanie

Accroche marketing: L'objectif du projet est de développer l'outil pour améliorer la transparence des compétences professionnelles en langue anglaise (comme lingua franca) dans les secteurs cibles de l'industrie hôtelière. Cela garantira l'avenir les niveaux pertinents de compétences en langues étrangères et leur évaluation aux personnes employées ou cherchant un emploi dans ce domaine.
Par un dialogue ouvert et avec la participation des groupes cibles, le projet propose un soutien CE EFP enrichissement éducatif par l'élaboration d'un mobilières outil, qui pourrait être adapté et appliqué comme un outil d'évaluation commun à la formation professionnelle et les établissements d'enseignement des langues, utiles pour les employeurs et les employés, transférables d'études au travail, d'un secteur à l'autre et d'un pays à l'autre, la création d'une action commune d'un système d'évaluation dans l'UE.

Résumé: Tool-TIPLS addresses directly one of the priorities set by the Copenhagen Declaration-to investigate how transparency, comparability, transferability and recognition of competences and/or qualifications, between different countries and at different levels, could be promoted by developing reference levels, common principles for certification, and common measures, including a credit transfer system for vocational education and training.
The aim of the project is to develop the tool to improve transparency of professional English language (as lingua franca) skills in the selected target sectors of the Hospitality industry. This will ensure future relevant levels of foreign language competences and their evaluation to people employed or seeking employment in this area.
The project’s specific objectives are to:
-define the levels of skills developed using existing VET curricula in each project partner country
-prepare the tool of descriptors of professional English language skills and competences(TOOL) based on CEF and ECVET
-implement international piloting in partner countries
-consult social partners–potential employers and professional consultants to implement the final improvement of the TOOL
-disseminate and valorise the project products via local, regional, national and international networks, via a project conference and other means as opportune
In addition the project's general objectives are to:
-develop vocational skills through professional foreign language knowledge, specifically in relation to the Hospitality industry
-enhance young peoples’ potential for mobility within the European labour market
-encourage intercultural learning and empathy in the Hospitality industry for international communication in different countries
-integrate professional language learning in theory with practical application within specific occupational sectors
The main output of the project is a tangible product- a set of downloadable CD’s with the tool of descriptors and user guide in all of the partner languages.
The consortium of the project consists of VET institutions from Lithuania, Latvia and Finland, language teaching professional institutions from Lithuania and Romania and internal evaluator from the UK.

Description: In the European context professional VET graduates' skills and other competences (such as professional language skills) are essential to the modern labour market, and especially in the Hospitality industry with growing intercultural communication needs. English is the most commonly used foreign language in all the partner

Information sur le projet

countries and the aim of the project is to develop the tool to improve transparency of professional English language (as lingua franca) skills in the selected target sectors of the Hospitality industry (receptionist, waiter, porter, etc.). This will ensure future relevant levels of foreign language competences and their evaluation to people employed or seeking employment in this area.
The project's specific objectives are to:
- define the levels of skills developed using existing VET curricula in each project partner country
- prepare the tool of descriptors of professional English language skills and competences (TOOL) on the basis of CEF and ECVET
- implement international piloting in partner countries
- consult social partners – potential employers and implement final improvement of the TOOL (English to Lithuanian, Latvian, Finish and Romanian)
- produce and disseminate final product- a CD with the set of descriptors which evaluate the professional English language competences and user guide
- disseminate and valorise the products via local, regional, national and international networks, via a project conference and other means as opportune.
In addition the project's general objectives are to:
- develop vocational skills through professional foreign language knowledge specifically in relation to the Hospitality industry
- enhance young peoples' potential for mobility within the European labour market
- encourage intercultural learning and empathy in the Hospitality industry for international communication in different European countries
- integrate professional language learning in theory with practical application within specific occupational sectors.

With respect to the European priority of Leonardo da Vinci (LEO-TraInno-1) - Transparency and recognition of competencies and qualifications - the TOOL is adaptable for use as a 'common basic guideline', which can be considered for the evaluation of professional English language skills in different EU countries as well as in other target sectors.
