for mobility

DON'T FORGET TO JOIN...

**the first European Platform for
Quality organisations in mobility
do it before the 28th of February 2015**

Getting work experience abroad is a significant factor in professional and personal development. Especially in the context of a European labour market that requires flexibility and intercultural knowledge, participation in mobility projects offers a unique chance for young people.

In recent years the European Commission has supported mobility in many ways, by introducing the free movement of workers and systems that allow greater transparency in qualifications between countries (ECVET). Funding possibilities like "Leonardo da Vinci Mobility" or, from 2014 onwards, "Erasmus+" allow people in initial vocational training, in the labour market as well as teachers and trainers to get further qualifications abroad. But nevertheless there are still obstacles that hinder people in going abroad or problems occur during the placement.

We therefore invite you to take part in a journey using our toolkit that will facilitate and improve the mobility experience.

The entities involved in European mobility projects and the beneficiaries of these projects can now count on a web platform that provide user-friendly, comprehensive and practical step-by-step information on how to organise an

implement a quality mobility project and explain the procedures for beneficiaries as well as organisers on the sending and hosting sides. We kindly request your organisation to test this platform so that we can improve it and make it useful and sustainable for users.

1. Please use and test our platform <http://www.eu-mobility.eu/>
3. Here you are in the **European Knowledge Center for Mobility!**
4. **Explore the website**, seek information about the EUKCEM project which allowed the creation of this website, look for information about the ERASMUS + project, search for sending organisations and host entities in a destination country and search for the routes of success.
4. There are 3 routes for success, one for each of the key stakeholders involved in the process of European mobility – sending organisations, host organisations and beneficiaries. Each route is represented by a metro line with metro stops. Each stop, which includes a number of action points, is an important step in the mobility process.
5. **Register your organisation** and enter the **Community of Quality**

If you represent a **Sending organisation**

6. **Choose Line 1 – Sending Organisations** – and follow the metro line through each stop. Read the information carefully at each of these stops (important phases of the mobility process), pay attention to the sub-stops, analyse the given information and additional sources of information, as advised.

7. **Click here to fill the questionnaire** for the **website assessment** and give us your feedback.

If you represent a **Host organisation**

6. **Choose Line 1 – Host Organisations** – and follow the metro line through each stop. Read the information carefully at each of these stops (important phases of the mobility process), pay attention to the sub-stops, analyse the given information and additional sources of information, as advised.

7. **Click here to fill the questionnaire** for the **website assessment** and give us your feedback.
