SMEs Qualification Handbook - SMEQUAL

538534-LLP-1-2013-1-IT-LEONARDO-LMP

http://www.adam-europe.eu/adam/project/view.htm?prj=10989

Projektinformation

Titel:	SMEs Qualification Handbook - SMEQUAL
Projektnummer:	538534-LLP-1-2013-1-IT-LEONARDO-LMP
Jahr:	2013
Projekttyp:	Innovationsentwicklung
Status:	bewilligt
Land:	EU-Zentralisierte Projekte
Marketing Text:	Der SME-QUAL Projekt zielt darauf ab, die Qualität der sektorübergreifenden Trainingssysteme für KMU (Kleine-Mittere Unternehme) zu verbessern, indem sie die ECVET Bestimmungen der Empfehlung des Europäischen Parlaments und des Rates zur Einrichtung des ECVET-System vorsehen. Insbesondere, wird das Projekt funktionsfähigen europäischen Richtlinien und Methoden für die Umsetzung des ECVET Bestimmungen der beruflichen Grundbildung, für die KMU ausstatten.
Zusammenfassung:	The main project need was to cover the lack of commonly shared methodologies and guidelines for designing trans-sectoral qualifications for the SMEs in terms of Learning Outcomes and with the allocation of ECVET points, and with quality assurance standards and related assessment tools. Within the existing networks this would highly support the qualifications' transparency and transferability, and the employees' mobility across Europe. Moreover, the VET providers and the other stakeholders (e.g. social partners, Universities) need to understand the practical application of such methodologies in order to facilitate their implementation within the VET programmes designed for the SMEs.
Beschreibung:	The project produced the Handbook for the LOs based qualifications for the SMEs and a concrete example of qualification prototype (the HR Professional Qualification) representing a reference tools for (re)designing VET programmes and qualifications for SMEs in line with the main European lifelong learning instruments. The concrete implementation of ECVET (and ECTS, EQF and EQAVET) supports the development of a European lifelong learning area for SMEs' employees and learners.
Themen:	*** Arbeitsmarkt *** Qualität *** Lebenslanges Lernen *** Anerkennung, Transparenz, Zertifizierung *** Berufsorientierung und -beratung *** Unternehmen, KMU
Sektoren:	*** Erziehung und Unterricht ** Erbringung von Sonstigen Wirtschaftlichen Dienstleistungen ** Erbringung von Freiberuflichen, Wissenschaftlichen und Technischen Dienstleistungen
Produkt Typen:	Evaluierungsmethoden Beschreibung neuer Berufsprofile Lehrmaterial Programme/Curricula Verfahren zur Analyse und Prognose des Berufsbildungsbedarfes Module Homepage Transparenz und Zertifizierung
Produktinformation:	The project provided operational European Guidelines and methods for the implementation of ECVET provisions in the VET programmes, for the SMEs. The main output achieved: - European Handbook for the LOs based Qualifications for SMEs - 10 Quality standards for the application of ECVET in the LOs based qualification for SMEs - Operational ECVET procedures - HR Professional Qualification prototype - Methodology and tools for assessing the compliance with Ecvet quality standards (Assessment Questionnaire)

Produkt '3. European Handbook for the LOs based Qualifications for SMEs'

Titel:	3. European Handbook for the LOs based Qualifications for SMEs
Produkttyp:	andere
Marketing Text:	The Consortium concentrated on the application of ECVET as the key new driver of change for trans-sectoral qualifications for the SMEs. Operational methods and guidelines for the definition of ECVET compliant qualifications were developed.
Beschreibung:	It is a scheme of the future trans-sectoral LOs based qualifications for the SMEs representing the first initiative in this field. A detailed document containing concrete characteristics, functions and supporting documentation of the future qualifications as expected and agreed by the partners of the project. It was considered the needs of a variety of future users of the Handbook and the different criteria arising from ECVET and other lifelong learning instruments (e.g. ECTS) for trans-sectoral qualifications of the future.
Zielgruppe:	- Vet providers; - Universities; - Students; - SMEs employees; - Trade unions
Resultat:	Handbook for the LOs based qualifications for the SMEs and a concrete example of qualification prototipe.
Anwendungsbereich:	The Handbook supports SMEs employees by creating a VET system where their skills and competencies are being recognized and validated according to European standards.

Produkt '5. Quality standards for the application of ECVET in the LOs based Qualifications for SME's'

Titel:	5. Quality standards for the application of ECVET in the LOs based Qualifications for SME's
Produkttyp:	andere
Marketing Text:	The Consortium defined the ’10 ECVET quality standards’, which will represent a trans-sectoral benchmark for the VET providers working with the SMEs and will also represent an evaluation and monitoring instrument for further improvements of the ECVET application. The standards referred both to the ECVET technical requirements and to national policies and contexts. Moreover, concrete methodology and tools will be designed for offering the possibility to assess the compliance of trans-sectoral qualifications for SMEs with the ECVET requirements and quality standards.
Beschreibung:	Partners developed a set of quality standards for the ECVET application in the trans-sectoral qualifications systems. This included the main characteristics and indicators that a Qualification should incorporate and represented for the VET providers and other stakeholders an evaluation tool for measuring the compliance with ECVET technical specifications.
Zielgruppe:	VET providers and other stakeholders.
Resultat:	1 methodological approach and 3 concrete tools for assessing the compliance with quality standards.

Produkt '9. Dissemination Plan and Strategy'

Titel:	9. Dissemination Plan and Strategy
Produkttyp:	andere
Marketing Text:	Dissemination strategy to promote the Project action and results.
Beschreibung:	Dissemination plan structured and organized the communication and dissemination effort of the SME_QUAL project. It promoted the scope and objectives of the project, and took advantage of all major communication and dissemination means and channels, with particular focus on the new, web-based media. The plan included a detailed analysis of the awareness raising strategy and the communication and dissemination infrastructure. It allocated tasks to be carried out to the project partners, according to the provisions of the Grant Agreement. The prerequisites for success, as well as the risks posed by external factors, were identified and underlined. The plan also set out the monitoring mechanisms of the project for the assessment of the dissemination actions, and included for that purpose appropriate template forms.
