DUTCH WEB-BASED TRAINING PROGRAMME

Introduction to training material:

ENGLISH

The products of the project in the Netherlands consist of:

- Training course material on importance of ESL
- Website with information, materials and checklists on four modules:
    1. Expectations with respect to apprenticeship training
    2. Cooperation w.r.t. guidance during apprenticeship training
    3. Youth Culture
    4. Risk factors for ESL

We cooperated closely with one of the branch organizations, ANKO, which provide training for company trainers that guide VET students during their apprenticeship. In this way we secured sustainability of use but material is also usable for other branches. The training is momentarily obligatory for companies which want to train VET students within these educational tracks. In the existing training a number of new modules were integrated which focus on the cooperation between school and company, and on risk factors for ESL. Besides the additional modules in the training a website was developed with information and instruments for school coordinators and company trainers. Four modules were developed. Participants receive a two day training. In the period between the first full day and the second half day participants are required to work on their portfolio, including exercises they needed to perform in their work setting. They also used the materials and information on the website.

DUTCH

De producten van het Nederlands deel van het Stay In project bestaan uit:

- Trainingsmateriaal wat gaat over het voorkomen van VSV
- Een website met achtergrondinformatie en checklijsten gericht op vier modules:
    1. Verwachtingen m.b.t. stage
    2. Samenwerking tijdens de stage
    3. Jeugdcultuur
    4. Risicofactoren voor VSV

We hebben in het project nauw samengewerkt met ANKO die een training voor praktijkopleiders verzorgt. Materiaal is breder toepasbaar. De training is ene tweedaagse training waarbij deelnemers ook werken aan een portfolio. Aan de training is een aantal modules toegevoegd die in gaan op het belang van samenwerking tussen school en leerbedrijf tijdens de BPV. Daarnaast is een website ontwikkeld met achtergrondinformatie en hulpmiddelen voor bpv-coördinatoren en praktijkopleiders. De website bevat vier modules waar de deelnemers aan de training, in de periode tussen de twee trainingsdagen in, kennis van kunnen nemen.

Toegang tot de website: http://www.mboraad.nl/?category/499492/Stay+In.aspx . Voor een wachtwoord kunt u contact opnemen met de MBO Raad via: info@mboraad.nl of via een van de contactpersonen van het Stay In project te vinden op: http://www.mboraad.nl/?page=1877
