Open Learning to Sign Language

2013-1-ES1-LEO05-66234

http://www.adam-europe.eu/adam/project/view.htm?prj=11078

Project Information

Title: Open Learning to Sign Language

Project Number: 2013-1-ES1-LEO05-66234

Year: 2013

Project Type: Transfer of Innovation

Status: granted

Country: ES-Spain

Marketing Text: The OPEN Multi-language platform is an educational tool for learning the English language in combination with 6 different sign languages/systems. The OPEN Multi-language platform has been designed and implemented by sign language experts and others language education professionals. This project provides European signers a new tool with video courses in:

- English
- International Sign (IS)
- Italian Sign Language (LSI)
- Poland Sign Language (PSL)
- Greek Sign Language (GSL)
- Sweden Sign Language (SwSL)
- Spanish Sign Language (SpSL)

The videos have been subtitled and structured in units where different situations about "everyday life" are reproduced in order to have access to the most useful words and expressions. All units have been divided in level of proficiency according to the CEFR which has been recently adopted by most of EU sign languages as well.

Summary: Why is this project necessary?

There is a severe shortage of quality educational materials that cause the exclusion of deaf people.

Bilingual education is the only way for deaf children to gain equal opportunities and allowing them to become full citizens in their own right. (final conclusion from the sign language conference in Ål,Norway,organised by World Federation of the Deaf (WFD),European Union of the Deaf (EUD),and Ål Experiential College). Becoming bilingual in the national sign language and the written language of one's country of residence is a fundamental right. National sign languages are the mother tongues of deaf people and the only language they can acquire fully and effortlessly. To function in society it is essential for deaf to become proficient in the respective (written) language of the country. Therefore, meaningful bilingualism must be ensured in education as early as possible and throughout the course of the whole educational path, including Lifelong Learning Programmes.

Why we chose to solve this problem?

The educational needs of hearing people can be improved, but the educational needs of deaf people are forgotten. Our project addresses the needs of the hearing impaired people to be proficient in their written language. For this reason, we created OPEN tool that incorporates all learning methods for ISL, up to C3 (CEFRL)

General Objectives achieved

-Eliminate communication barriers and foster the learning of foreign language for the deaf.
-Make available to learn other languages and cultural diversity for the deaf through ICT, the methodology of e-learning.
-Ensuring equal opportunities for deaf people to participate in training activities of this kind.

Project Information

Specific Objective:It has been designed a tool for language learning for people with hearing impairment.

Product/result achieved

-It has designed an e-learning educational package for learning the English language combined with the international sign system
-Transferable methodological tool to use for learning other languages

Activities performed

-Teaching research. Planning and monitoring for the inclusion of people with hearing impairment in training development activities
-Objectives were implemented to get the program development
-The methodology was piloted in the framework of vocational training. We have worked with e -learning, presentation of multimedia contents and materials that supported curriculum integration
-Pilot testing of the platform. Virtual program
-Monitoring and evaluation

Description:
- Development of the overall Teaching methodology
- Implementation of the OPEN platform
- Production of the e-learning contents and materials
- Pilot testing of the platform
- Monitoring and evaluation of the activities

Themes:
*** Utilization and distribution of results
*** Intercultural learning
*** Lifelong learning
*** Open and distance learning
*** Access for disadvantaged
*** Equal opportunities
*** Language training

Sectors:
*** Education
* Professional, Scientific and Technical Activities
* Other Service Activities

Product Types:
material for open learning
open and distance learning
teaching material
website

Product information:
- N°1 e-learning educational package for learning the English language combined with the international sign systems.

- N°2 transferable methodology that can be used with other sign languages.

Product 'OPEN TOOL - Multi-language platform_ Version Beta'

Title: OPEN TOOL - Multi-language platform_ Version Beta

Product Type: open and distance learning

Marketing Text: The OPEN Multi-language platform is an educational tool for learning the English language in combination with 6 different sign languages/systems. The OPEN Multi-language platform, designed and implemented by sign language and language education experts, provides European signers with a new tool with video courses in:

- English
- International Sign (IS)
- Italian Sign Language (LSI)
- Poland Sign Language (PSL)
- Greek Sign Language (GSL)
- Sweden Sign Language (SwSL)
- Spanish Sign Language (SpSL)

Description: Videos are subtitled and structured in units where different "everday life" situations are reproduced in in order to have access to the most useful words and expressions. All units are divided in level of proficiency according to the CEFR which has been recently adopted by most of EU sign languages as well.

Target group: Deaf people.
Sign language teachers.
Training centers.
Deaf associations

Result: At this time the platform is in its Beta version. The partners are working in shooting videos. Then we'll do a test platform (driver) to correct possible errors and test its effectiveness. In late 2015, we will have the learning platform open to all

Area of application: Teacher Training: Foreign language teaching (1453)
Teacher education educational environment for children with special needs (1444)
Educational field Education and training (141)
Educational level ISCED 2 - Lower secondary education or second cycle educac
Educational level ISCED 1 - Primary education or first stage of basic education
Educational level ISCED 2 - Lower secondary education or second cycle educac
Educational level ISCED 2Voc - vocational education or technical
Educational level ISCED 4Gen - General Teaching
Economic Sector P85 - Education
