Zusammenfassung: The project has been in line with the European strategy 2020 aimed at developing smart, sustainable and inclusive growth.
According to such strategy which has indicated the goal of achieving the 75% rate of employed people (age 20-64) by 2020, the project aimed in particular at supporting over 45 adults (with secondary school and with compulsory education
degrees) who loose their jobs due to the current economic crisis, in renewing their professional profile in order to be reintegrated in the labour market.

In each of the 5 countries involved, partners should involve 20 people (over-45 unemployed) for the development of entrepreneurial skills.

In this regard NewsJob has achieved the following concrete results with related impacts:
- ITALY: 2 persons are close to start new activities through mentors’ support; 3 persons have started to work in a dependent way
- LATVIA: 3/ 5 persons are close to develop their business idea as permanent business; 2 persons might leave business activities and transform hobbies in income source
- GREECE: 3 persons have opened their own business, 2 persons are now self-employed
-SPAIN: 3 persons have created their own business; 2 persons are close to create their own business
- UK: 3 persons have started their own business; 2 persons are close to create their own business; 3 persons have found a permanent job.
As mentioned, the 30% of final beneficiaries (n.88) have been reintegrated into the labour market.
For project sustainability, n. 16 Memorandum of Understanding have been signed so far with local stakeholders at country level.
