NEWSLETTER PROJECT Bond

Enabling Vocational Education Training teachers & trainers to better reach adult learners and improve learning outcomes

N° 3 / May 2015

Pilot phase completed!

During the last months of the project the partners carried out the **national adaptation** of the **Pedagogical Training for Trainers Methodology** (PTTM), the successful methodology transferred by ISQ. As a result, they have developed their own national **BOND Toolbox**, which includes concepts, methods, techniques, tools and technologies to develop pedagogical and andragogical skills among VET trainers/teachers. The **BOND Toolboxes** have been **tested in training sessions** organized by each partner organization and delivered by partners internal staff. More than **100 VET trainers/teachers** and other **VET providers**, representing different VET organizations in the partner´s countries, have participated in the training sessions. At the end of the sessions, all partners promoted a **reflection panel** to validate the BOND toolbox and define a **mainstreaming strategy**, elaborating a final **recommendations report**.
