Information sur le projet

Titre: Web basée sur des outils de formation en santé et sécurité

Code Projet: 2013-1-ES1-LEO05-66909

Année: 2013

Type de Projet: Projets de transfert d'innovation

Statut: Accordé

Pays: ES-Espagne

Accroche marketing: Le nouveau site thématique d'outils de formation pour la santé et la sécurité au travail

Résumé: Health and safety at work is one of the areas where the EU has had the biggest impact – with a solid legal framework covering the maximum number of risks with the minimum number of regulations. Health and safety at work is now one of the most important and most advanced areas of EU social policy. As reported in the mid-term review of the current strategy (2007-12, recently released by the Commission (SEC(2011) 547), occupational hazards are still relatively high for certain categories of workers (young, older, migrant workers, workers with insecure jobs), for certain types of companies (SME enterprises are particularly exposed, accounting for 82% of all occupational injuries and 90% of all fatal accidents), and for certain sectors, as healthcare and welfare services. In this context, the information and training of workers are universally recognized as effective measures to improve workplace health and safety. Within the project "H & S - Training Programme for Health and Safety in the cleaning industry", funded by the Lifelong Learning Programme in 2010, COCETA, Oltremodo, Inforcoop, APSHTDC and ANJAF collaborated to the implementation and the transfer of tools and methodologies easy to use and useful to ensure safety at work in the field of civil and industrial cleaning.

Description: The general objective of the project "Web Based Training Tools for Health & Safety" was to transfer the model tested in the social sector, providing a large number of training agencies and companies - from those affiliated to the networks of the project partners – with methodologies and training toolkits for workplace safety on a "friendly" support, multilingual and of easy consultation for the working men and women in the social sector, adapting and implementing a training audiovisual product for security, already successful in the cleaning industry. The product offers the opportunity to focus more on certain types of workers (women, youth, migrants), on the most critical phases of work for workers (new hires, job changes, innovations in the production process, etc..) and on specific characteristics of the social sector. Our new product was developed in video formats and is now available on-line.
The consortium was composed of:
1) Coceta (Confederacion Española de Cooperativas de Trabajo Asociado) - Spain
2) Inforcoop - National Training Institute of the National Cooperative League and Mutuals - Italy
3) Oltremodo crossmedia co-think - Italy
4) APSHSTDC - Portugal
5) ANJAF - Portugal
6) GIE - Romania
7) Balkanplan - Bulgary

WORKING PACKAGES:
WP 1: Organisation & Management.
1. Define, establish and implement the Bodies of the project management (Steering Committee and Working Group)). (ACHIEVED)
2. Define the responsibilities and tasks of management structures and coordination of the project. (ACHIEVED)
3. Define a steering system of the project that will be shared by all the partners in order to share the model of economic management, the control of financial flows and the modes of communication between partners. (ACHIEVED)
4. Develop and implement the details of the programming of each WP (ACHIEVED)

WP2: Analysis of the Experience and Tools for Training in Health and Safety at work

Information sur le projet

in the Social Sector.
1. Design of the comparative analysis (ACHIEVED)
2. Identification of areas of investigation (ACHIEVED)
3. Identification and development of tools and methodologies (ACHIEVED)
4. Evaluation of the viability of the transfer (ACHIEVED)

WP 3: Adaptation and integration of the product
1. Analysis of data obtained through the reports of the previous phase: content, profiles, points of attention, and of voluntary and mandatory training for companies of Social Services (ACHIEVED)
2. Development of the formative journey (ACHIEVED)
3. Design and programming of the training courses on line, accessible through mobile devices (ACHIEVED)
4. Rehabilitation of the audio-visual material existing DVD format to support video (ACHIEVED)
5. Testing and validation of the product to two companies in Italy (ACHIEVED)
6. Checking the functioning and effectiveness of the tool (ACHIEVED)
7. Adaptations and modifications (ACHIEVED)
8. Schedule, method, and areas where to perform the transfer and the dissemination of the product (ACHIEVED)

WP 4: Experimentation of the model
1. Identification and selection of 60 companies to do the verification (ACHIEVED)
2. Identification of the 300 workers in which this product is directed (ACHIEVED)
3. Presentation and feedback by experts belonging to the national Working Group (ACHIEVED)
WP 5: Transfer of innovation
1. Ending of the final product, accepting the suggestions received and / or problems identified in the previous WP (ACHIEVED)
2. Inclusion of training in the catalogs and platforms for video of the project partners (ACHIEVED)
WP 6: Communication and evaluation
1. Creation of a logo and promotional materials (posters, brochures) (ACHIEVED)
2. Publication of reports and state of progress expected (ACHIEVED)
3. Spread between the associations and companies via mailing lists, promotion among the web sites of the partners, and promotion to social networks (ACHIEVED)
4. Organization of a launch event and public presentation in Madrid (ACHIEVED)
5. Organization of a public act in each country (ACHIEVED)
6. Organization of a final conference in Madrid to present the results of the project, the experimentation carried out and the products training video tested and validated (ACHIEVED)

Thèmes: *** Formation tout au long de la vie
*** Formation ouverte et à distance
*** Entreprise, TPE, PME
*** Formation continue

Sectors: *** Santé Humaine et Action Sociale

Types de Produit: Site Internet
Autres
Enseignement à distance
