# Fit for Europe - Further qualification for laboratory technicians after finishing their initial training

DE/08/LLP-LdV/PLM/280073

http://www.adam-europe.eu/adam/project/view.htm?prj=3445

## Project Information

| | |
|---|---|
| Title: | Fit for Europe - Further qualification for laboratory technicians after finishing their initial training |
| Project Number: | DE/08/LLP-LdV/PLM/280073 |
| Year: | 2008 |
| Project Type: | Mobility - people in the labour market PLM |
| Individual Participation: | Not possible |
| Status: | completed |
| Country: | DE-Germany |
| Marketing Text: | The target group consists of lab technicians (chemical, environmental and pharmacy). They finished their trainings and now need practical experience and furhter training with instruments for analyses which the school could not provide. They should also widen their horizons in intercultural learning and better their knowledge of Enlgish as it is spoken in international labs. |
| Summary: | The aim is to provide lab technicians (chemical, environmental and pharmacy) with a placement in the UK after their qualification. In this way they should get the opportunity to work in their chosen field, get a further qualification and give them a broader view of the chances a training like theirs offers for further jobs. Another aim in sending them to a British university is to give them broader language skills as English is THE leading language in the laboratories. Another important aim is to make them more self-confident and allow them to take on the responsibilities of holding a proper job. |
| Themes: | *** Labor market<br>*** Sustainability<br>*** Lifelong learning<br>*** Vocational guidance<br>*** Language training<br>*** Continuous training<br>** Quality<br>** Intercultural learning<br>** Recognition, transparency, certification<br>* Utilization and distribution of results |
