ECVET TC NET

European Credit Transfer System for Vocational Education and Training - Tourism and Catering Network

Tourism and catering is one of the most important economic branches in Europe and provides more than 7 million jobs in Europe, however especially this sector is relying very much on flexibility and mobility of work force. This is the main reason for the development of the ECVET model as a basis for **mutual recognition and transparency of competences and learning outcomes.**

The ECVET TC NET is a network project for the development and elaboration of the ECVET system for the tourism and catering industry in Europe and is aimed at a constant and permanent network enlargement.

In order to address this issue, the project team used the ECVET system to develop a model for the mutual recognition and transparency of competences, as well as learning outcomes for the hospitality and tourism industry.

Objectives

- development of a working ECVET model for the hospitality and tourism sector in Europe
- pilot phase of the ECVET model
- experience in using ECVET
- guidelines for using ECVET in practice
- guidelines for developing ECVET compliant training programmes
- advices and recommendation of policy papers for ECVET

Involved partners

- Hospitality and tourism schools
- VET providers in tourism and catering
- Universities
- Enterprises in tourism and catering
- Staffing agencies

All these partners will support the dissemination and exploitation of the results in Europe and beyond.
