

ENTANGLE project

IF YES, GET INVOLVED IN OUR PROJECT:

A real support for VET teachers

The ENTANGLE project aims at providing VET teachers with the skills and competences in order to cope with future challenges. In particular the project will provide them with materials and tools to improve the quality of the entrepreneurship training and develop new programmes better adjusted to the business world. Furthermore, it will optimise their position as career guide and their practical role in between students and current start-ups and/or small entrepreneurs.

ENTANGLE final goal

The project's ultimate goal is to have more VET students starting their own enterprise and this will be reached by directly and indirectly improving the quality of: lessons, learning material, advice, guidance and VET-small entrepreneur/former VET student relations.

An innovative approach

The ENTANGLE project has an innovative approach to entrepreneurship teaching in VET institutes (VETs). It adopts a full scale method with supporting materials and tools, a direct and practical approach not yet applied in most VETs.
