Project Information

Title:	Transition of mentoring supported life-long learning in rural areas
Project Number:	LLP-LdV-TOI-2007-SK-73100950
Year:	2007
Project Type:	Transfer of Innovation
Status:	completed
Country:	SK-Slovakia
Marketing Text:	Project ROUTES 2 - Transition of mentoring supported life-long learning in rural areas is realised in 2008-2009 in two rural areas in middle Slovakia – Gemer and Horehronie by Slovak NGO Posonium together with 4 partners.
Summary:	The imported project aimed to increase the employability of people in rural areas in Horehronie and Gemer by improving access to training and learning materials. The objective is to transfer existing methodologies for providing lifelong learning - support systems.
Description:	2 research meetings were realised to find out real educational needs of inhabitants of 2 rural areas in the middle of Slovakia. We paid special attention to knowledge and skills needed for entrepreneurship in tourism in rural areas. After this, seminars for local leaders (entrepreneurs, self-government representatives, teachers, active citizens) were realised with these topics: business and entrepreneur skills (how to start and plan own business, marketing and presentation), project management (where and how to gain money to start or exceed business).
Themes:	*** Lifelong learning *** Open and distance learning * Enterprise, SME
Sectors:	*** Accommodation and Food Service Activities ** Other Service Activities
Product Types:	CD-ROM modules material for open learning teaching material program or curricula website
Product information:	Products of the project: - training package (study and supproting materials) - book on development of rural areas - web page www.vioregio.sk with freely accessible study materials, information, contacts on rural areas and its development - CD with all materials

Products

1 Training package

2 Web platform

Product 'Training package'

Title:	Training package
Product Type:	program or curricula
Marketing Text:	The primary product output from this project will be an innovative mentor supported learning group concept which will be adapted to Slovakia in both self learning and tutor lead training formats. In the first part of the training package we will describe the programme philosophy which will be followed by mentors and tutors. Theoretical inputs and interactive training methods are presented as individual results.
Description:	The training package is an innovative mentor supported learning group concept which was prepared and developed in both self learning and tutor lead training formats within Routes 1 project in Estonia.
Target group:	Primary target groups of the project will be all those involved in the development of the human resource (HR) in rural communities and the primary impact will be on micro-businesses, the self-employed and unemployed in all industrial and service sectors (agriculture, tourism manufacturing, agro-tourism, winter tourism, etc.) regardless of sex or age throughout rural Europe. The concepts of facilitated learning groups will also be appropriate to HR development with other social and racial groups suffering from exclusion in both rural and urban contexts.
Result:	Training concept Learning materials Learner support materials Case studies Evaluation and feedback Book
Area of application:	middle Slovakia - Horehronie and Gemer
Homepage:	www.vioregio.sk
Product Languages:	English Estonian Spanish Slovak

Product 'Web platform'

Title:	Web platform
Product Type:	website
Marketing Text:	The webpage will be valuable source of information about our project as well as the general information about education in rural areas. Webpage will support the access to training and learning materials in rural communities. It will be developed to inform everyone who is interested in this area, include the latest trends in Europe, suitable resources, etc.
Description:	Webpage will provide an effective information base for mentors, tutors, trainers and employers and will create excellent opportunity for networking of all who want to gain more information about rural communities' development and education.
Target group:	Citizens of rural areas, municipalities, entrepreneurs, mentors, visitors of rural areas..
Result:	project web page www.vioregio.sk
Area of application:	worldwide
Homepage:	www.vioregio.sk
Product Languages:	Spanish Slovak Estonian English
