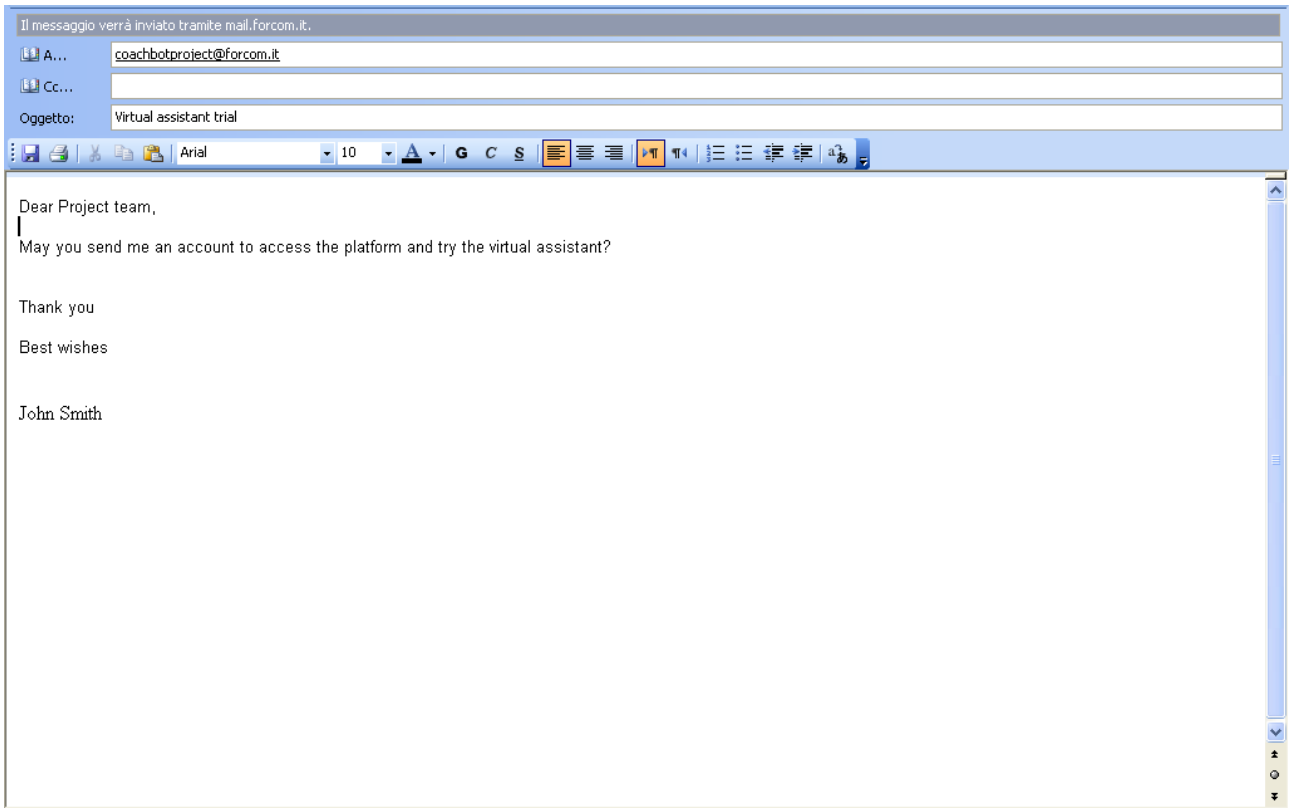
VIRTUAL COACH-BOT TRIAL

The project team decided to make freely available the COACH BOT E-Learning platform (with the virtual assistant) to allow anyone to try the system.

The procedure to get an account to enter the platform and to try the system is the following:

- Access the project Website www.coachbot.eu
  (or http://www.forcom.it/coachbot/)

- In the Home page, below the label NEWS on the right side of the screen, an icon of the virtual assistant is displayed. Click on this icon to send an email to the project team.



Many people has already requested an account to try the Platform. In particular, the possibility to get and access the platform was extensively promoted during conferences the project team participated in. The conference participants have shown real interest to get an account and, in fact, send an email to the project team to do so. Moreover the platform has been shown and accounts have been provided to many stakeholders during bilateral meetings that aimed at promote and exploit the project.
