RETAIN - Retention in Education and Training

LLP-LdV/TOI/2007/SE/1490

http://www.adam-europe.eu/adam/project/view.htm?prj=5553

Information sur le projet

Titre:	RETAIN - Retention in Education and Training
Code Projet:	LLP-LdV/TOI/2007/SE/1490
Année:	2007
Type de Projet:	Projets de transfert d'innovation
Statut:	Accordé
Pays:	SE-Suède
Accroche marketing:	The main target groups for the project are teachers, trainers, mentors and guidance counsellors working with young people in Upper Secondary Schools or in Vocational training. The beneficiaries will be the young people at risk of dropping out from the education and training system. The envisaged impact of the project will be an increased number of young people carrying out their education and training plans and a decreased number of drop-outs from schools and vocational training institutions. The main outcomes from the project will be a manual/hand-book for teachers, trainers, mentors and guidance counsellors on the topic of drop-out prevention and training sessions built on the manual/hand-book. There will also be a European dissemination conference at the end of the project.
Résumé:	
Description:

Produits

1 RETAIN - Retention in Education and Training

Produit 'RETAIN - Retention in Education and Training'

Titre:	RETAIN - Retention in Education and Training
Type de Produit:	Modules
Texte marketing:	Dropouts from education and training are a major issue in most European countries. Young people lacking recognised qualifications have difficulties finding a permanent job and are at high risk of unemployment. The Retain project has identified successful experiences and methods used to prevent dropping out. Some of them have been tested and further developed in the project and will be presented in the Retain training course on a European level. The course is now available in the Comenius-Gruntvig In-Service Training Database http://ec.europa.eu/education/trainingdatabase/ .
Description:	Five methods and experiences has been further developed, tested and put together in modules presented in a one week training course. The modules are: Learning Styles, Coaching Attitude, Personal Profile, Watch and Vocational Mentor.
Cible:	Mainly teachers, Trainers, Guidance Counsellors, Mentors
Résultat:	The methods and experiences are aimed at preventing young people from dropping out from education or training.
Domaine d'application:	The modules can be used for further training of staff in schools and training institutes.
Adresse du site Internet:	www.retainproject.net
Langues de produit:	anglais
