CarEIn Emotionally Intelligent Care in Health and Social Assistance

2009-1-ES1-LEO05-10337

http://www.adam-europe.eu/adam/project/view.htm?prj=5843

Project Information

Title:	CarEIn Emotionally Intelligent Care in Health and Social Assistance
Project Number:	2009-1-ES1-LEO05-10337
Year:	2009
Project Type:	Transfer of Innovation
Status:	completed
Country:	ES-Spain
Marketing Text:	As recognised by the European Foundation for the Improvement of Living and Working Conditions health and social sector is one of the most important aspects of modern knowledge based societies. This sector has suffered several changes in the past years due to the ageing of population, the increase in illness prevention and a higher demand, by the citizens, of integrated services which can cover their specific needs. The result is a higher emphasis on care. These changes require an adaptation of workers skills to the new situation in order to be able to match market demands. CarEIn improved the qualification of workers through the promotion of EI;improved the quality of their work and services provided; facilitated the adaptation of workers from health and care sector to changes in the sector; increased the motivation and satisfaction of workers of health and care sector; and improved the quality of life of the beneficiaries of health and care sector.
Summary:	The CarEIn Project was based on TREIN – Training in Emotional Intelligence LdV Pilot Project, which main objective was the elaboration of a training tool for the promotion of the use of Emotional Intelligence skills in Continuous Training methodologies.The main reasons for transferring TREIN Project were that the training contents could be applied to other target groups, as Emotional Intelligence is a transversal issue which can be applied to all sectors and beneficiaries with some adaptations, and that it could contribute to improving the quality of the services provided by health and care workers and, as result, the quality of live of people receiving health and care services. CarEIn improved the qualification of workers through the promotion of EI; improved the quality of their work and services provided; facilitated the adaptation of workers from health and care sector to changes in the sector;increased the motivation and satisfaction of workers of health and care sector; improved the quality of life of the beneficiaries of health and care sector.
Description:	CarEIn improved the qualification of workers through the promotion of EI; improved the quality of their work and services provided; facilitated the adaptation of workers from health and care sector to changes in the sector; increased the motivation and satisfaction of workers of health and care sector; and improved the quality of life of the beneficiaries of health and care sector.
Themes:	*** Labor market *** ICT *** Others *** Lifelong learning *** Open and distance learning *** Access for disadvantaged *** Equal opportunities *** Continuous training
Sectors:	*** Human Health and Social Work Activities *** Education ** Administrative and Support Service Activities
Product Types:	website others modules open and distance learning

Project Information

	material for open learning
Product information:	Different products were elaborated: WP2 – naalys the specific needs of workers from health and care sector. WP3 – Compilation of Practices for the promotion of the use of Emotional Intelligence in health and care sector: A specific methodology was designed for the search and selection for practices promoting Emotional Intelligence in health and care sector. WP4 – Adaptation of TREIN training contents: Indepth study of the contents of TREIN in order to establish how they could be adapted to CarEIn Project, taking specific consideration of the results obtained from the analysis and the good practices selected. The training contents were elaborated with the collaboration of all project partners. WP5 – Web 2.0 Learning Environment: The learning environment was designed taking specific consideration of the characteristics of health and care sector in each partner country and of the competences of the workers.

R10_FINAL VERSION OF THE WEB 20 LEARNING ENVIRONMENT.pdf

http://www.adam-europe.eu/prj/5843/prj/R10_FINAL%20VERSION%20OF%20THE%20WEB%2020%20LEARNING%20ENVIRONMENT.pdf

This product is a Web 2.0 learning environment addressed to the promotion of Emotional Intelligence in the healthcare sector through the use of innovative approaches and new addapted contents based on Moodle software. It is the final version of the major project product.

R11_PROJECT WEBSITE.pdf

http://www.adam-europe.eu/prj/5843/prj/R11_PROJECT%20WEBSITE.pdf

Website(www.carein.eu) with information about the project(descritpion, partnership, products and results), news and updates related to Emotional Intelligence in the healthcare sector.

R3_ REPORT ON THE NEEDS OF WORKERS FROM THE HEALTH AND CARE SECTOR.pdf

http://www.adam-europe.eu/prj/5843/prj/R3_%20REPORT%20ON%20THE%20NEEDS%20OF%20WORKERS%20FROM%20THE%20HEALTH%20AND%20C

This reports reflects the results of the national resports on the anlysis of the needs of workers form health and care sector.
Besides the training need's analysis in the Emotional Intelligence(EI) area, creates and analyzes a comprehensive frame of the various situations in the different involved Countries. Not only with regard to the emerged needs, but also to the knowledge of the EI-related subjects and
to Web 2.0 tools use (even informal) in the training sector. The knowledge of the workers' training needs and, with it, of their operative sectors helps in developing a training project that is coherent with the needs and the expectations and moreover that isn't separated from the reference context

R5_GUIDE OF GOOD PRACTICES ON THE PROMOTION OF EI IN HEALTH AND CARE SECTOR.pdf

http://www.adam-europe.eu/prj/5843/prj/R5_GUIDE%20OF%20GOOD%20PRACTICES%20ON%20THE%20PROMOTION%20OF%20EI%20IN%20HEALTH%

This product aims at providing information regarding the situations of the Health and Social Care Services Sector within the partner countries participating in CarEIn project, namely Bulgaria, Czech Republic, Italy, Spain, Poland and United Kingdom, and to provide a list of at least 10 good practices by country. In order to better understand the situation of the
sector. The different types of good practices available in each participating country are different, and they need to be addressed within the actual situation of this working sector.
