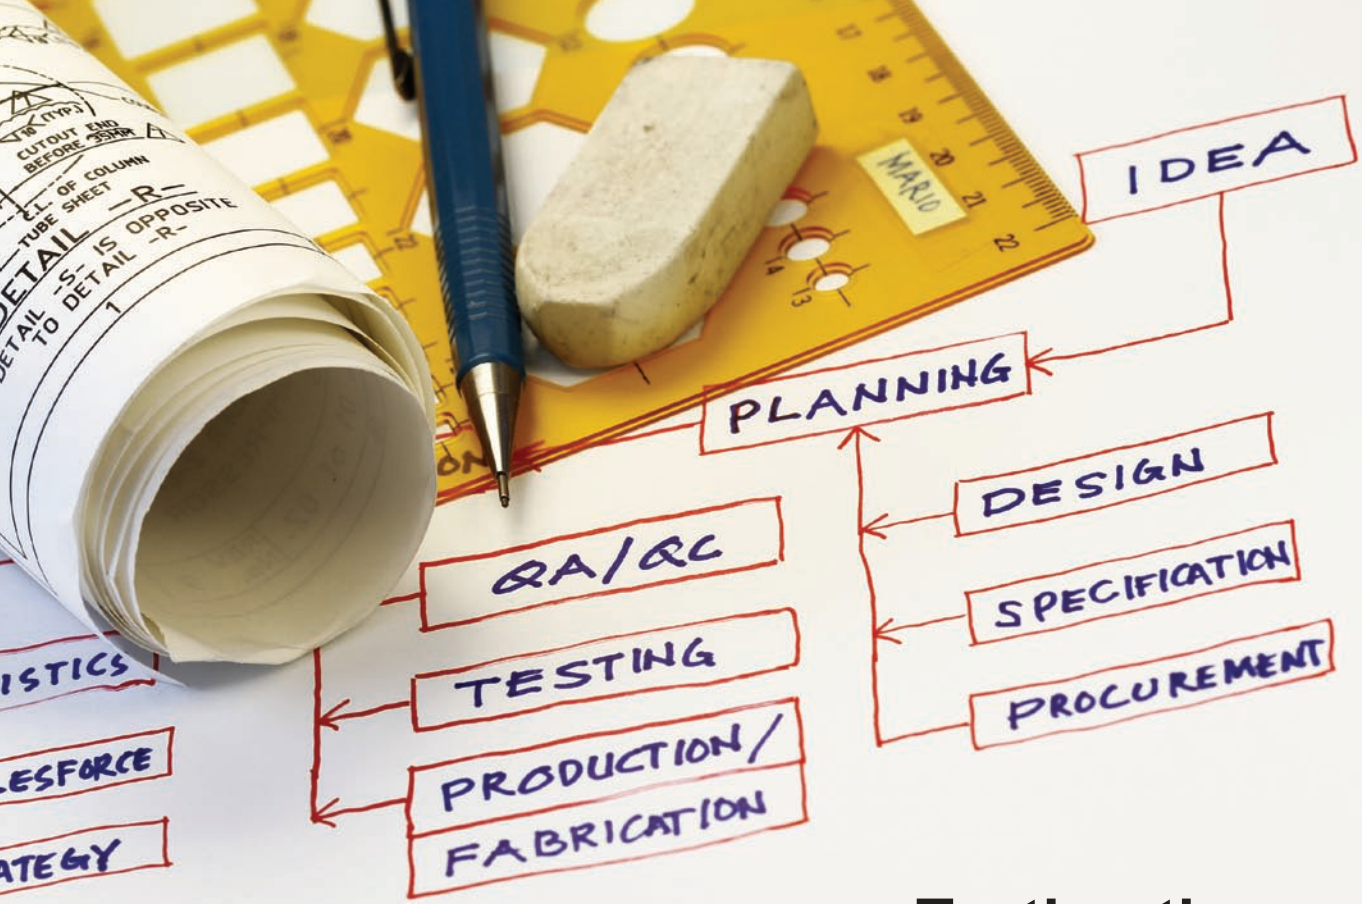
HANDMADE
CREATIVE
THINKING



Testing times ahead

Get involved in Handmade Creative Thinking!

Are you a Vocational Educational Trainer or student? Do you run a small crafts business?

Are you working within the skills/crafts sector or on an apprenticeship?

If yes, are you interested in developing **Creative Thinking** skills to support you professionally and personally?

We have developed a new **Creative Thinking** System that includes a DIY manual and lots of interactive activities. We want **you** to be one of the first to try it out!

What's in it for you?

Our new **Creative Thinking** manual will give you the skills to have positive breakthroughs in how you develop your business, teach and learn contemporary or traditional skills/crafts, generate new ideas and deal with challenges.

How do you get involved?

- It's simple! Get in touch with us and express an interest.
- We will meet you briefly and explain about the Creative thinking manual and how it works.
- Take the manual home, try it out in your own time, and then give us your feedback!

We are looking for a small number of interested participants to work with us in early 2011 in London.

HCT is a European project taking place in three countries, The UK (London), Italy (Bologna and Palermo) and Malta (Valletta). Please go to our website http://www.handmadecreativethinking.eu for more information about our project and if you are interested in joining us send an email to deborah@capturearts.org or brigitte@capturearts.org.
