Information sur le projet

Titre: Europass+2

Code Projet: 2009-1-IT1-LEO05-00265

Année: 2009

Type de Projet: Projets de transfert d'innovation

Statut: Clôturé

Pays: IT-Italie

Accroche marketing: Il sito web europassplus2 supporta l'autocompilazione del Curriculum Vitae Europeo fornendo una guida per far emergere e valorizzare le competenze acquisite lungo l'arco della vita. Il sito è il risultato dell'expertise di 14 partner- da 6 paesi europei- rappresentativi del mondo del lavoro e della formazione (associazioni imprenditoriali, imprese, sindacati, società di placement, enti per la formazione permanente e continua). La partnership garantisce la qualità del prodotto secondo sia le linee guida europee che il punto di vista delle imprese.

Résumé: Molte persone, perdendo il lavoro a causa della crisi economica, sono chiamate, rientrando nel mondo del lavoro, a mobilitare le loro competenze e abilità per svolgere un nuovo lavoro. L'obiettivo del nostro progetto è connesso alla priorità 1 del Call 2009, che si focalizza sulle politiche e strumentazioni per la trasparenza delle competenze (sviluppo dell'EQF e ECVET) e sull'uso di dispositivi adottati dalla Commissione Europea , quali il Portfolio Europass. Il progetto ha trasferito e adattato il modello realizzato in un precedente progetto (Europass+), cercando soluzioni adeguate ai target adulti, lavoratori a bassa qualifica e disoccupati. Si è raggiunto l'obiettivo di favorire l'utilizzo del sito, mirando alle condizioni necessarie per sviluppare una reciproca fiducia tra imprese e lavoratori in merito all'uso del CV Europass. Il principale risultato del progetto è una versione migliorata del tool on line, che supporti gli utilizzatori nel riconoscere le loro competenze a partire dalle esperienze di vita e di lavoro e nel descrivere le competenze in termini di learning outcomes. Il tool consente agli utilizzatori di archiviare liberamente, aggiornare e stampare il Cv Europeo, con l'aiuto di un set completo di esempi che supportano l'esposizione delle competenze fornendo appropriate descrizioni secondo modalità narrative supportate da documenti ed evidenze. Il progetto sostiene anche lo sforzo fatto da Europass-Italia and dalla rete dei NEC, nel migliorare il cv europeo, sviluppando un sito web che promuova la costruzione interattiva del dossier.

Description: Gli step del progetto sono state: a) analisi e valutazione del tool Europass+ esistente, tenendo conto degli sviluppi delle politiche europee; b) sviluppo della versione aggiornata e migliorata del tool; c) testing del tool coinvolgendo differenti target group: disoccupati adulti, lavoratori a bassa qualifica, migranti, giovani; d) valutazione in itinere e finale e azioni di valorizzazione.
L'organizzazione capofila - Eurolavoro, un'agenzia pubblica con sede a Legnano (Milano), coordinatrice di servizi locali all'impiego – supportata da ECAP Consulenze, incaricata della valutazione esterna del precedente progetto. SMILE e SMILE Puglia due associazioni indipendenti, con sede a Roma e Bari, hanno assicurato il testing e la valorizzazione coprendo tre regioni italiane. Un gruppo di piccole e medie imprese locali e associazioni di lavoratori, appartenenti a diversi settori, sono state coinvolte nella validazione degli out come di progetto.
I partner europei hanno fornito un'eccellente expertise, nello sviluppo e test del tool e nel valorizzare le opportunità di trasferimento. Tra i partner vi sono anche soggetti già operanti in partnership nel precedente progetto: un centro di formazione F-bb (D), coordinatore del precedente progetto,un'associazione imprenditoriale (MEDEF - Besancon -Fr), l'ente bilaterale responsabile del CVT in Spagna (Fundacion Tripartita) e un'istituzione per l'educazione superiore in Polonia (TNOIK). Gli altri partner (Migrants Resource Centre – UK, IERF- FR -SBC_UK), hanno assicurato un ampio test del progetto.
