ENTREPRISE COMME innovation pour créer de nouveaux lieux de travail AU MOMENT DE LA CRISE MONDIALE

2010-1-ES1-LEO05-21250

http://www.adam-europe.eu/adam/project/view.htm?prj=7373

Information sur le projet

Titre: ENTREPRISE COMME innovation pour créer de nouveaux lieux de travail AU MOMENT DE LA CRISE MONDIALE

Code Projet: 2010-1-ES1-LEO05-21250

Année: 2010

Type de Projet: Projets de transfert d'innovation

Statut: Accordé

Pays: ES-Espagne

Accroche marketing: L'objectif principal de l'INNOVACREAWORK projet est de promouvoir l'entrepreneuriat comme l'une des compétences clés dans le contexte d'une citoyenneté active et de l'économiemondiale. Un programme novateur sera transférée aux pays participants afin de soutenir la réalisation de nouvelles compétences pour de nouveaux emplois et faire respecter la compétitivité et l'innovation. Le programme en question est Etre un entrepreneur, créé et développé en Espagne, etintroduit avec succès à l'EFP dans ce pays. Grâce à la formation professionnelle des agents différents, la mobilisation et à travers la diversité culturelle et historique de tous les partenaires, les méthodes et les stratégies de facilitation d'une manière intégrée et multidisciplinaire sera abordé.

Résumé: The main objective of the project INNOVACREAWORK was to promote the entrepreneurship as one of the key competences in the context of active citizenship and global economy. An innovative programme was transferred to the participating countries in order to support achieving new skills for new jobs and enforcing competitiveness and innovation in the labour market. The programme in question was "APRENDE A EMPRENDER" ("BE AN ENTREPRENEUR"), created and developed in Spain, and successfully introduced to VET in this country. Through different VET agents (institutional and pedagogical actors, target publics, local community), mobilization and through the cultural and historical diversity of all the partners, we approached facilitation methods and strategies in an integrated and multidisciplinary way.
Starting from the above mentioned resource, the partnership aimed to translate, adapt and implement the programme in every participating institution, to improve the available materials while taking into account the educational reality of each one of the participating countries and to build a common European product, using a common framework applicable both to this partnership and other European countries not involved in the project.
The impact of the project INNOVACREAWORK increased given the numerous innovative ways of dissemination that were applied: the European fair that during which the recipients of this initiative were able to launch their "fake" companies and where they were able to compare their results and compete with their colleagues from other European countries, and the final seminar in each country where the best practices were presented. In this way the quality and the value of the models adapted from the original Spanish programme were tested and evaluated and we had the opportunity to verify its success and results.

Description: Our proposal implemented the Transfer of Innovation from different perspectives:
1. SECTORAL: through the transfer of the VET innovative materials that enabled young European entrepreneurs to be
successfull in the times of global crisis. The materials had already been tested in Spanish VET centres and during the
duration of the project they got adapted to the European level (please find enclosed two sets of the following
materials):
- Entrepreneurship and entrepreneur.
- Tools and resources.
- Working on attitudes and skills.
- Multimedia materials and the webpage www.aprendeaemprender.com
2. GEOGRAPHICAL:
Geographical perspective resulted from the implementation of the programme that had already been tested in Castilla y
Leon (Spain) to various European countries such as: United Kingdom, Portugal,

Information sur le projet

Poland, Greece, Turkey and Slovakia. The
implementation stage consisted in:
• CORRECTION OF THE TRANSLATED MATERIALS TO MOTHER TONGUE AND REVISION
• FAMILIARISATION OF THE PROGRAMME WITH PARTERS AND ADAPTION TO THEIR OWN COUNTRY
• ANALYSIS OF HOW THE PROGRAMME CAN BE IMPLEMENTED IN THEIR COUNTRY AND COHERENCE WITH THE
EDUCATIONAL & VOCATIONAL EDUCATION & TRAINING SYSTEM
• INVESTIGATION OF ACCREDITATION OF COMPETENCIES VIA LEOPASS OR NATIONAL VOCATIONAL EDUCATION
SYSTEM IF APPLICABLE
• RECRUITMENT & SELECTION OF TEACHERS
• TEACHERS TRAINING
• EXPERIMENTAL STAGE CARRIED OUT IN ONE CENTRE IN EACH PARTNER COUNTRY
• DEVELOPMENT STAGE
• INTERNAL AND EXTERNAL EVALUATION

Information sur le produit:
Dissemination and exploitation of results stage covers the activities mentioned in the third stage of the project, once the
design and development stages are over. The following activities were carried out:
- Setting in motion the programme “European Guide On Be An Entrepreneur” validated in the development
stage.
- Monitoring the exploitation of results and defining the changes and improvements to be introduced in future.
- Official announcement of the European projects and ideas contest where students from different countries were given
the opportunity of sharing their ideas and their business and entrepreneur projects with the others. October 2011
- European Fair. The students who had won the ideas contest at national level met up in Turkey to present and share
their ideas with students from other countries.
- Designing, printing out and publishing of new materials.
- Dissemination to other European organizations with similar objectives.
- Dissemination of the project by each partner to their Ministry of Education and local educational authorities.
- Dissemination of the project to VET teachers and Professional Training and

Information sur le projet

Guidance.
- Closing evaluation conference in Turkey and presentation of the results of the project.
- Internal and external dissemination. During the whole project, the internal dissemination was carried out through
coordinators meeting, intrawebs of the project, online training platform, e-mail, video conferences, messenger application,
social networks (Facebook). The external evaluation was carried out through the web page www.aprendeaemprender.
com and through the online training platform www.eccgrundtvig.com where all the partners were able to disseminate the
project, share the evaluation and monitoring techniques, share materials,best practices examples and good memories. Each
country disseminated the project through local mass media: newspapers, radio, television.

Produit 'Translation of "Be an Entrepreneur" tools into English'

Titre:	Translation of "Be an Entrepreneur" tools into English
Type de Produit:	Site Internet
Texte marketing:	The translation of the previously chosen tools into English was essential in order to be able to carry out the technological training in Spain in the official language of the project and then start implementing the project in UK.
Description:	The translation of the above mentioned tools was executed by the Faculty of Translation of the University of Salamanca. The monolingual Spanish platform and the software had to be transformed into multilingual versions so the contents and the tools could be used in all the Project languages.
Cible:	Vocational training teachers / trainers / trainees / tutors and students of VET.
Résultat:	"Be an Entrepreneur" tools translated into English.

Texte marketing:	ideas contest was organized in order to choose the best INNOVACREAWORK entrepreneurial projects.
Description:	Within Leonardo Transfer of Innovation Project called “Enterprise as innovation to create new work places at time of global crisis” an ideas contest was organized in order to choose the best INNOVACREAWORK entrepreneurial projects. Its objective was to foster the development of personal values such as creativity, autonomy, self-confidence, tenacity, responsibility, capacity to assume risks and also some social values such as team spirit and solidarity. In this section you will be able to access three best projects from each partner country which had been prepared using “Be an Entrepreneur” tools. More detailed information on the winning projects can be found at www. innovacreawork.com and DVD (ideas contest seccion) Winners from all the countries participated in the European Fair which took place from the 23rd to the 27th of September in Turkey where they presented their entrepreneurial projects. Great coexistence of the young entrepreneurs should be highlighted.

Methodological training in Poland

Date	17.10.2011
Description	The training was prepared for training consultants who would consequently train VET teachers in their respective countries. The training was based on the innovative methodology, the competencybased approach to training. Team work was enhanced, all the workshops guaranteed learning and acquiring new skills on the basis of the development of competencies. WORKING SESSIONS FOR VET TEACHERS: 1) Defining the teachers competencies in the use of ICT, especially regarding "Aprende a emprender" tools. 2) Detection of training necessities. 3) Carrying out training actions on the use of "Aprende a Emprender" tools. 5) Carrying out training activities 6) Evaluation of the training sessions.
