Boosting EntrepreneurShip Tools FOR Migrants

2010-1-PT1-LEO05-05164

http://www.adam-europe.eu/adam/project/view.htm?prj=7616

Project Information

Title: Boosting EntrepreneurShip Tools FOR Migrants

Project Number: 2010-1-PT1-LEO05-05164

Year: 2010

Project Type: Transfer of Innovation

Status: completed

Country: PT-Portugal

Marketing Text: Immigrant entrepreneurs are specially needed of business support. By working in highly competitive markets and by being subject to additional burdens than those experienced by native entrepreneurs, immigrant entrepreneurs are likely to face high bankruptcy rates. To address these issues, the Boosting Entrepreneurship Tools for Migrants (BEST FORM) project aims at strengthening the community-based business advice (CBBA) model within immigrant communities. This model provides a tailor made business support service, imbedded in the cultural context of the immigrant, provided by own local ethnic leaders and problem-solving oriented and, as a consequence, more likely to help immigrant entrepreneurs to overcome the intercultural barriers that negatively affect their business development.

Summary: Immigrants have a special tendency for self-employment (and, consequently, for entrepreneurship). However, the way towards opening their own business is jeopardized by cultural and linguistic barriers, as well as by lack of knowledge of legislation (in tax and labor, for example) and of other entrepreneurial aspects.
Mainstream entities and migrant-oriented associations intend to contribute to surpassing these barriers, by offering business counseling for immigrants. Studies – such as those led by the European Network on Ethnic Minority Business – indicate that this assistance does not always fulfill the needs of immigrant entrepreneurs, since it does not usually tackle the mixed embeddedness (structural factors, cultural conditions and personal characteristics) to which immigrants are subjected in an efficient manner. As a result, immigrant entrepreneurs are not adequately accompanied in terms of business management, leading to a high rate of bankruptcy among immigrant entrepreneurs.
BEST FORM intends to enhance business advice in the countries involved and to ensure the long term sustainability of this activity. In this context, the aim is to apply the community-based business advice (CBBA) model and specially the training materials implemented under the EQUAL Program “Building Entrepreneurship” in United Kingdom (“Supporting Inclusion in Enterprise Development” project). This model consists in providing business advice through immigrant-oriented associations, by training local ethnic leaders to perform such tasks and by specially strengthening interpersonal, communicate on and client-advisory skills. Such model will be adapted according to each country reality, assessed through a needs analysis report.
The main outcomes of BEST FORM will consist of two handbooks (one supporting the pilot training courses, the other being guidelines for future training courses), pilot training courses (implemented in 2 partner countries, in order to test the content adaptation of CBBA methodology) and an interactive tool. The handbooks and the interactive tool will be available in all languages of the countries involved.
As a result of this project, a consolidation of the business advice activity in each country involved, the acquisition of competences and tools in providing business counseling in an immigration context (improving the potential benefits of such activity) and the enhancement of long term sustainability of immigrant entrepreneurial activities is expected - which shall contribute to combating poverty and social exclusion among immigrant communities.
BEST FORM consortium involves 8 institutions, from 7 different countries, all having experience in European projects with some of them having participated in or coordinated projects related to immigrant issues (Building Entrepreneurship, COPFIM, IMMI Train, Int.Comp).

Description: Boosting Entrepreneurship Tools for Migrants (BEST FORM) is a Leonardo da Vinci-Transfer of Innovation Project that intends to strengthen the community-based business advice (CBBA) model within immigrant communities. Specifically, BEST FORM aims at enhancing interpersonal skills of business advisers working with

Project Information

immigrant entrepreneurs, helping these entrepreneurs to overcome the intercultural barriers that negatively affect their business development and to create the conditions for the replication of the CBBA model in Germany, Italy, Poland, Portugal, Romania and Spain. The main target group of BEST FORM is immigrant-related associations that already provide business support to their members. In terms of results, BEST FORM will provide a series of materials – Guideline Handbook, Support Handbook and Interactive Tool – to be tested in 2 pilot courses in Italy and in Portugal – that can easily contribute to the replication and dissemination of the CBBA model in other contexts.

Themes:
*** Intercultural learning
*** Lifelong learning
*** Access for disadvantaged
** Others
** Social dialog
** Equal opportunities
* Labor market
* Enterprise, SME

Sectors:
*** Other Service Activities
** Administrative and Support Service Activities
* Professional, Scientific and Technical Activities

Product Types:
distribution methods
material for open learning
others
teaching material
evaluation methods
modules
website

Product information:
BEST FORM will develop 3 main products, to be tested and validated in 2 pilot courses, in Portugal and in Italy:
• Support Handbook – which shall guide the trainees during the training sessions of CBBA model. This Handbook will be strategically designed to address the skill needs of business advisers. Moreover, the Handbook will consist of practical and useful information for business advisers to address immigrant entrepreneurship issues (business plan development, financial management, communicational skills, and counseling skills, among others) and contain success cases (very concrete case studies) of successful business advice activities among immigrant entrepreneurs in other countries.
• Guideline Handbook –this Handbook will provide general guidelines for the implementation of future training courses by the target group itself (immigrant-oriented associations) and other stakeholders;
• Interactive tool – in which not only the content of the pilot training course will be available but also space will be provided for the exchange of experience among immigrant entrepreneurs and for the development of new contents, as suggested by the target group.

Product 'Case Studies Report'

Title:	Case Studies Report
Product Type:	others
Marketing Text:	
Description:	Each partner has identified a minimum of 2 case studies in their national language and has developed their own national report. The report was produced in PowerPoint format. Inveslan gathered the information and thus provided the general case studies report.
Target group:	Business advisers already working with immigrants; mainstream business advisers interested in working with immigrant; potential new business advisers; immigrant-oriented associations; other stakeholders.
Result:	
Area of application:	The case studies report shall be used on the pilot training courses and shall be included in the Support Handbook, in the Guideline Handbook, in the DVD and in the interactive tool

Product 'Need Analysis Report'

Title:	Need Analysis Report
Product Type:	others
Marketing Text:	
Description:	Each partner has completed 20 interviews or enquiries to assess the training needs of business advisers toward immigrant communities in their own countries. Each partner has developed a report concerning their own national reality. Inveslan gathered all these national reports and other information to develop the general report.
Target group:	Immigrant-oriented associations; other stakeholders.
Result:	The Need Analysis Report will help ensuring the accuracy of BEST FORM products and materials towards the real necessities of the target group.
Area of application:	The Need Analysis Report shall be included in the Support Handbook, on the Guideline Handbook, on the DVD and on the Interactive Tool.

Events

Final conference in Porto

Date	13.09.2012
Description	A final conference took place in Porto, Portugal the 13th of September, 2012.
Target audience	Immigrant business advisors, individuals and organizations at local, regional and national levels involved in immigrant communities and entrepreneurship.
Public	Event is open to the public
Contact Information	Project manager: André Barbosa andrebarbosa@spi.pt
Time and place	Universidade Portucalense Infante D. Henrique R. Dr. António Bernardino de Almeida, nº 541, Porto - Portugal at 9.00

International Seminar

Date	27.04.2012
Description	The seminar will serve to present the results of the project, mainly the assessment of the pilot training courses as well as the products conceived under Best Form. The seminar aims to increase the project impact on the target groups, to raise awareness on the immigrant entrepreneurship and on the business support issues, and to gather both national and international participants from the target audiences. This seminar will ensure the transfer of the project results to the target group.
Target audience	Immigrant-oriented associations; mainstream business support entities; policy makers; public in general; other relevant stakeholders.
Public	Event is open to the public
Contact Information	
Time and place	The seminar will take place in Romania at the University of Pitesti on 27 of April 2012.
