Marketing Text: the project is an example of implementing ECVET for IVT training

Summary: Mobility IVT project with the theme Steps towards a future European profession in sport?! had the overal objective development of professional skills and practical abilities of a group of 15 participants XI students of the Liceul Cu program Sportiv Sebes vocational-sport profile, handball specialization (7 persons) and football (8 persons), sports instructor qualification. Mobility duration was 4 weeks and mobility deployment period was 31.01.2011-27.02.2011.
The targets which Liceul Cu Program Spportiv Sebes proposed in the application form were:
O1. Improving the level of training for participants by developing skills and abilities necessary for the application of processes, methods and current and effective training techniques to increase the capacity of transition from school to work.
O2. Improve sports training components for a good professional integration.
O3. Accumulation of sports specific linguistic terms in a foreign language, communication and relationships skills development through direct contact with coaches and athletes Portuguese
O4. Creating the premises of a transnational partenership and sustainable development of intra-European relations aimed at implementation of joint structures for quality assurance in education and training.
Certification of professional competence, skills and knowledge acquired by the participants was made through the Europass mobility certificated issued by the Liceul Cu Program Sportiv Sebes and validated by organizations receiving Olimpico Clube do Montijo, Portugal and Aldegalense Andebol Clube Montijo, Portugal.
The participants got some participation and linguistic certificates from AFDPM and some training certificates certified by the two clubs partner in the project.
Liceul Cu Program Sportiv Sebes issued to the participant some linguistic certificates fot the participants's linguistic training made in Romania through the project.
