TRECVET - Transnational Recognition of European Certification in Vocational Education and Training

518197-LLP-1-2011-1-ES-LEONARDO-LMP

http://www.adam-europe.eu/adam/project/view.htm?prj=8271

Project Information

Title:	TRECVET - Transnational Recognition of European Certification in Vocational Education and Training
Project Number:	518197-LLP-1-2011-1-ES-LEONARDO-LMP
Year:	2011
Project Type:	Development of Innovation
Status:	completed
Country:	EU-Centralised Projects
Marketing Text:	TRECVET (Transnational Recognition of European Certification in Vocational Education and Training) will provide an analytic software tool that makes qualifications transparent and comparable and thereby gives decision makers the necessary information to implement a system of transferable credits (ECVET). This mutual recognition of other states qualifications will encourage and help mobility and cross-border exchange.

Summary:

In the EU there are numerous industries and professional bodies who's regulations, training methods and examination requirements vary dependent on the specific requirements of the individual Member States; the result is that qualifications and certificates are not universally accepted or transferable. This situation restricts mobility for suitably qualified personnel, trainers and learners within the EU and has lead to the creation of the European Credit system in Vocational Education and Training (ECVET) which aims to remedy these problems. The specific need for this project arises because currently within the ‘Small Commercial Vessel’ (SCV) maritime sector of the EU, qualifications are not mutually recognised between the authorities of Member States. Therefore nationally qualified professionals are excluded from commanding identical vessels, operating under different national flags.

The project will develop software methods to make transparent syllabi comparisons, resulting in the online tool TRECVET. This will be achieved by breaking down syllabi into their most fundamental elements and then presenting these so that meaningful information on commonalities, differences and country specific requirements can be identified. By this technique, qualifications and learning outcomes become transparent and comparable, which in the wider framework of ECVET, leads to transferability, recognition and mobility across Europe.
The tool will be designed to be scalable and able to accept syllabi from any VET industry within Europe.
This tool will enable decision makers to comply with their commitments to the ECVET strategy which requires that “by 2012 Member States are expected to have created the necessary conditions and measures for the gradual implementation of the ECVET”.
Presented as a publicly accessible website, this tool will empower learners and trainers to make informed decisions about study and career paths, thereby gaining better job placements and mobility.

Description:

The Wider Problem: Within the EU there are numerous industries, organisations and professional bodies who's interpretations, regulations, training methods, examination requirements and levels of competence
vary dependent on the specific requirements and circumstances of individual Member States. The result of this is, qualifications are not universally accepted or transferable amongst Member States. As a consequence, mobility restrictions are placed on suitably qualified personnel, professionals, trainers and
learners, within the EU.
The Specific Problem: The specific requirement for this project arises because currently within the SCV maritime sector of the EU, qualifications of one member state are not recognised by the authorities of other member states. This problem exists across most EU Member States. The project will examine this
problem from a representative sample consisting of the three countries UK, Spain and Germany.
A specific example: UK qualified skippers resident in Spain can only work

Project Information

commercially on UK registered (flagged) vessels; they are not allowed to work on Spanish or any other EU registered vessels. Additionally, Spanish nationals residing and working in Spain with similar Spanish qualifications can only work on
Spanish registered vessels; they cannot take command of a foreign flagged vessel. It is therefore possible, in fact common, that a suitably qualified skipper is excluded from commanding one or more identical vessels, operating out of the same port, based solely on the national flag that the particular vessel is operating under.
The specific need: The current situation restricts the free movement of labour, as it prevents suitably qualified skippers choosing their work according to where it is needed and on a vessel matched to their level rather than origin of qualification. All member states within the SCV sector must find a way to
recognise each others qualifications in order to create work mobility for professional personnel within the industry.
The wider need: All VET industries within the EU will be required to recognise each others qualifications to allow more work mobility for European citizens.

Themes: *** Labor market
*** Recognition, transparency, certification

Sectors: ** Transportation and Storage
** Other Service Activities

Product Types: program or curricula
procedure for the analysis and prognosis of the vocational training requirement
website
transparency and certification
modules

Product information: With the development of the TRECVET analytic software tool the project aims to provide the SCV sector as well as the wider vocational sector with a tool that allows recognition of qualifications and also contributes to the devlopment of the ECVET system.

Product 'TRECVET software Tool'

Title:	TRECVET software Tool
Product Type:	transparency and certification
Marketing Text:	The TRECVET software tool, is an application to store and manipulate elements from a variety of syllabi.
Description:	The purpose of the TRECVET software tool is to carry out objective comparisons on different country syllabi.
Target group:	Target Group a). Decision makers, competent bodies and authorities Target Group b). Students (learners), potential or existing and professionals. Target Group c). Trainers, institutions, SMEs and VET organisations
Result:	The tool shows commonalities and country specific differences and recommend learning pathways to achieve specific learning outcomes.
Area of application:	short term: in the SCV Sector medium term: other maritime qualifications long term: in vocational training
Homepage:	https://www.trecvet.eu/comparison-tool.html
Product Languages:	English

Product 'TRECVET demo video'

Title:	TRECVET demo video
Product Type:	Film
Marketing Text:	The project partners produced two short videos and uploaded them to YouTube, which are explaining the aims nad objectives as well as demontrating how to use the TRECVET Comparison Tool.
Description:	The following videos were produced: · The first video provides a human reference to the project, its philosophy aims and outcomes and how it expects to improve training and employment opportunities and the mobility of workers within the Member States of the European Union. · The second video offers a live demonstration of the TRECVET tool and how it can assist workers, learners, trainers and authorities to determine learning outcomes and plan learning pathways to achieve defined employment and learning goals.
Target group:	workers, learners, trainers and authorities
Result:	wider general information about the projects results
Area of application:	for general information
Homepage:	http://www.youtube.com/channel/UCc1oqN9beqX6LKLwubSGQqQ
Product Languages:	English

Product 'Project Website'

Title:	Project Website
Product Type:	website
Marketing Text:	This is the public project website that informs all interested parties about the activities, progress and results of the project. The TRECVET Comparison Tool is now active on this website at: https://www.trecvet.eu/comparison-tool.html
Description:	public Project Website
Target group:	Target Group a). Decision makers, competent bodies and authorities within both, the project related countries (UK, Spain and Germany) and the SCV marine sector. Target Group b). Students (learners), potential or existing and professionals. Target Group c). Trainers, institutions, SMEs and VET organisations.
Result:	The TRECVET Comparison Tool is active on this website.
Area of application:	ECVET
Homepage:	www.trecvet.eu
Product Languages:	English

Product 'User Handbook'

Title:	User Handbook
Product Type:	distribution methods
Marketing Text:	The User Hand Book is a non technical electronic pdf document, which is a reference guide for the end users of the TRECVET Comparison tool; it is not intended to be a service or maintenance manual.
Description:	The hand book •gives the end user a brief outline of the ECVET principles for which the software tool was developed; •explains the operation of the tools graphical user interfaces; •gives examples of how the tool can be used to identify and achieve learning outcomes; and •explains how the tool can be used to plan learning pathways.
Target group:	end users of the TRECVET software tool
Result:	
Area of application:	
Homepage:	https://www.trecvet.eu/downloads.html
Product Languages:	English

http://www.adam-europe.eu/prj/8271/prd/4/1/DEL12%28WP4%29_TRECVET_User%20Hand%20Book.pdf

Product 'Forums'

Title:	Forums
Product Type:	distribution methods
Marketing Text:	The forums have been replaced by Facebook and LinkedIn and aýou are invited to comment on any of these pages: Facebook: https://www.facebook.com/trecvet and LinkedIn: http://www.linkedin.com/groups/TRECVET-Project-4458856?trk=my_groups-b-grp-v
Description:	Facebook and LinkedIn are means of providing information to the Target Groups, interested parties and the general public. All intersetd parties are encouraged to offer observations, suggestions and constructive criticism.
Target group:	all interested parties
Result:	
Area of application:	dissemination and evaluation
Homepage:	www.trecvet.eu
Product Languages:	English

Product 'Press Releases'

Title:	Press Releases
Product Type:	distribution methods
Marketing Text:	Press releases were made in English, German,Spanish and Polish and aimed at decision makers, trade and official journals associated with the target groups as well as at the general public at large.
Description:	Four press releases were issued during the lifetime of the project .
Target group:	
Result:	
Area of application:	
Homepage:	www.trecvet.eu
Product Languages:	Polish German English Spanish

Product 'Newsletters'

Title:	Newsletters
Product Type:	distribution methods
Marketing Text:	The TRECVET newsletter in the form of an electronic document, has been produced and published regularly and informes all interested parties about the progress and achievements of the project. These newsletters can be ordered for sending by email or viewed and downloaded from the projects website at http://www.trecvet.eu/downloads.html
Description:	The Newsletters provide information on progress, present results and developments, explain unforeseen outcomes both positive and negative and describe problems encountered and overcome.
Target group:	Target Group a). Decision makers, competent bodies and authorities within both, the project related countries (UK, Spain and Germany) and the SCV marine sector. Target Group b). Students (learners), potential or existing and professionals. Target Group c). Trainers, institutions, SMEs and VET organisations. And all interested parties and stakeholders
Result:	Newsletter issue1 Newsletter issue2 Newsletter issue3 Newsletter issue4
Area of application:	The newsletters has been produced in English, German, Spanish and Polish and is addressed to the target groups as a means of reconnecting and keeping them in contact with the project.
Homepage:	www.trecvet.eu
Product Languages:	Polish Spanish German English

Product 'Brochure'

Title:	Brochure
Product Type:	distribution methods
Marketing Text:	The final brochure has been designed and has been distributed to the front line operations of the target groups, marina agencies and authority offices, sea schools and training organisations.
Description:	There is a brief introduction describing the project history, philosophy and aims; but the main focus will be on the outcomes in particular the TRECVET tool and its benefits to the target groups. The brochure gives links to the project's and associated websites, the TRECVET tool, useful contacts and other sources of relevant information.
Target group:	
Result:	
Area of application:	
Homepage:	www.trecvet.eu
Product Languages:	English German Spanish

Product 'Flyer for TRECVET Project'

Title:	Flyer for TRECVET Project
Product Type:	others
Marketing Text:	The TRECVET Flyer gives a brief overview of the aims and objectives of the project and is in a practical format to print out and distribute. It is also available to be viewed or downloaded from the project website: http://www.trecvet.eu/downloads.html
Description:	This pdf file is a prinable outline of the project aims and objectives.
Target group:	all interested parties
Result:	easy information device, pdf file and printed leaflet for regular distribution.
Area of application:	dissemination
Homepage:	www.trecvet.eu

Product 'LinkedIn Group'

Title:	LinkedIn Group
Product Type:	distribution methods
Marketing Text:	The TRECVET Group in LinkedIn gives all interested parties the possibility to share the development of the project, learn about new achievments, discuss the project and its aims and connect to the consortium.
Description:	The LinkedIn Group was created to complement the forum facility, which suffers from hacking. During the lifetime of the project the preferences of user have shifted quite dramatically and insted of forums users discuss with much more frequency in social media like Facebook and LinkedIn.
Target group:	all interested parties
Result:	a LinkedIn group with 57 members in August 2013
Area of application:	dissemination, evaluation, sustainability
Homepage:	http://www.linkedin.com/groups/TRECVET-Project-4458856?gid=4458856&trk=hb_side_g
Product Languages:	English

Product 'Facebook'

Title:	Facebook
Product Type:	distribution methods
Marketing Text:	The TRECVET Project has its own facebook page to offer a non-formal chat possibility about the project,to receive valuable feedbak and to disseminate the project to as many people as possible.
Description:	The TRECVET Project page on facebook is another option for dissemination, evaluation and contact to all interested parties. It is less formal than LinkedIn and more used than forums.
Target group:	all interested parties
Result:	a valuable dissemination tool with more than 400 likes in November 2013
Area of application:	dissemination, evaluation, sustainability
Homepage:	https://www.facebook.com/trecvet
Product Languages:	English

Product 'Final Report'

Title:	Final Report
Product Type:	others
Marketing Text:	This is the Final Public Report for the TRECVET Project, as submitted to the EACEA.
Description:	This report gives a summary of the projects achievements and an outlook of the possibilities of the TRECVET Comparison Tool for the future.
Target group:	all interested parties
Result:	
Area of application:	ECVET, Qualification recognition,
Homepage:	www.trecvet.eu

Events

TRECVET - End of Project Conference

Date	20.09.2013
Description	The TRECVET project is developing an innovative software tool which, by breaking syllabi down into their smallest parts and making them comparable in an objective way, will enable authorities to more easily implement the ECVET principles. This is done on the example of Small Commercial Vessel Qualifications from Spain, Germany and the UK. The Conference in Palma de Mallorca will showcase the results with presentations from the consortium as well as from policymakers and stakeholders across Europe. Furthermore the conference is encouraging networking and open discussion about the future use and implementation possibilities of the software tools.
Target audience	Maritime authorities and institutions, crew agencies, accrediting bodies, shipping companies, ECVET experts, ECVET implementing bodies, experts from other qualifications, journalists and any interested parties.
Public	Event is open to the public
Contact Information	Sea Teach - Silja Teege; email@sea-teach.com; Tel: 0034-971 648 429 please also see our website https://www.trecvet.eu/news.html for further details or download the agenda and registration form from our files section here on the ADAM platform
Time and place	20th September 2013 10am to 6pm Palma de Mallorca/ Spain Chamber of Commerce PLEASE REGISTER TO ATTEND ADMISSION IS FREE
