L'écotourisme: Nouvelles Connaissances par l'innovation, Nouveaux Emplois par le Transfert de Connaissances

2011-1-CY1-LEO05-01564

http://www.adam-europe.eu/adam/project/view.htm?prj=8643

Information sur le projet

Titre: L'écotourisme: Nouvelles Connaissances par l'innovation, Nouveaux Emplois par le Transfert de Connaissances

Code Projet: 2011-1-CY1-LEO05-01564

Année: 2011

Type de Projet: Projets de transfert d'innovation

Statut: Accordé

Pays: CY-Chypre

Accroche marketing: L'innovation, comme un ingrédient pour le développement écotouristique réussie une condition nécessaire au succès. ECOTOUR vise à intégrer les éléments de la stratégie d'innovation comme un moyen d'améliorer le développement de l'écotourisme et de permettre la création de nouveaux emplois. En outre, le projet vise à développer un guide complet sur les normes d'écotourisme à Chypre qui ,finalement, peut être utilisé par d'autres destinations. Le titre du programme lui-même indique l'importance qui est donnée à l'innovation et le transfert de connaissances.

Résumé: Ecotourism is considered to be an answer to the compelling need to enhance the positive and minimise the negative impacts of the (ever) growing tourism industry, promote responsible travel with respect to culture and nature and improve the well-being of local people. It is a special form of tourism that is currently being promoted all over Europe; it has the potential to grow much faster than the mass tourism industry in general, however, with a condition that relevant knowledge and skills are available. Despite this, ecotourism is still a new/developing area and analysis in the partner countries shows that training in ecotourism is at genric levels at the moment.

The ECOTOUR project aims to improve the skills and competences of people in the tourism sector by introducing an ecotourism training programme in Cyprus, Estonia, Lithuania and Spain, while at the same time encouraging ecotourism development in project countries in particular and Europe in general. The project is based on the transfer of the results of LdV pilot project ECOLL that was completed in 2007 and provided innovative results that were successfully integrated in formal training programmes in partner countries. The objectives of ECOTOUR include the analysis of the ECOLL training programme and materials, their adaptation to the requirements of the target group and project countries; sharing experiences in ecotourism training and development of new (e-)learning contents ; testing and evaluation; dissemination of information about the project and project results and preparation of appropriate mechanisms/processes for their further exploitation.

The project will be implemented by a consortium of 8 partners from 4 EU countries spanning from North to South of Europe (Cyprus, Spain, Estonia, Lithuania). The consortium includes education and training organisations, enterprises and authorities responsible for tourism development, thus allowing to combine different views and experiences and achieve the expected impact of the project.

The main outcome of the project will be a state of the art ecotourism training programme and support materials (Trainers Handbook, Learner's Guide) available in Greek, Estonian, Lithuanian, Spanish and English. The project will also produce a number of results that will be used for dissemination (project website, leaflets, CDs, conference) that will help to promote the project and exploit its results.

The primary target group of the project are people working in the tourism sector - entrepreneurs, employees, guides, tourism policy makers. The project will help to significantly increase their access to training, improve their qualifications in the area of ecotourism and increase employability in the emerging ecotourism related jobs. It will also contribute to the development of this type of tourism in partner countries. It is expected that after the completion of the project the results could also be "exported" to the other geographical areas of Europe.

Description: Ecotourism: New Knowledge by Innovation, New Jobs by Knowledge Transfer” –

Information sur le projet

ECOTOUR is a Leonardo da Vinci programme project co-funded by the European Commission.
The project aimed to improve the skills and competences of people in the tourism sector by introducing an ecotourism training programme in Cyprus, Estonia, Lithuania and Spain, while at the same time encouraging ecotourism development in project countries in particular and Europe in general.

Information sur le produit:
The project meets the initial objectives specified in the application form:
- Needs analysis in project countries was carried out;
- ECOLL ecotourism curriculum and training materials were analysed and adapted to the needs of the target group and project countries, taking into account the differences in training systems, professional standards, tourism business environment, culture and languages,
- Experiences in ecotourism training were shared and new learning contents developed,
- The developed training product was tested and evaluated,
- Information about the project and its results was disseminated to the target group, stakeholders and general public; it was prepared for their further exploitation.

The project aimed to improve the skills and competences of people in the tourism sector by introducing an ecotourism training programme in Cyprus, Estonia, Lithuania and Spain, and to encourage ecotourism development in project participants' countries in particular and Europe in general - these aims were met.

Langues de produit:	anglais

Produit 'Plan de diffusion et d'exploitation'

Titre:	Plan de diffusion et d'exploitation
Type de Produit:	
Texte marketing:	Dissemination is a very important part of the project. It has started from the beginning of the project and is an on-going activity, contributing to project success and sustainability. It helps to raise awareness about the project, its main subject - ecotourism, to inform and motivate the target group and potential users. The dissemination and exploitation strategy and plan helps ensure optimal use of project results during and beyond the lifetime of the project.
Description:	The Dissemination and Exploitation Plan describes the overall strategy for the dissemination and exploitation of the ECOTOUR project results and knowledge gained during the project. The main purpose of the plan is to disseminate information about the ECOTOUR project and its progress, in such a way that users in the tourism area can make use of the Project results. The Plan identifies the main results to be disseminated throughout the project, the major stakeholders and targets groups to focus on, the available dissemination channels and instruments.
Cible:	Target group - project partners (this is an internal document); Target group - project partners/ Potential beneficiaries - entrepreneurs and managers of tourism SMEs, employees of tourism SMEs, tourism policy makers, training organisations, students.

Produit 'site web du projet'

Titre:	site web du projet
Type de Produit:	Site Internet
Texte marketing:	ECOTOUR website is one of the main dissemination tools of the project. It allows the target group to learn about the project and its team, follow the progress of the project and get in touch with project partners. The website increases visibility of the project and invites everybody interested to cooperate. The private part of the website contributes to project management, as a tool for partners communication.
Description:	Project website is available at www.ecotour4jobs.org since May 2012. It contains the description of the project, presentation of partners, news (including project newsletters), events and links related to ecotourism, and contact details of project coordinator and all partners. The information is presented in English and languages of project partners - Greek, Estonian, Lithuanian and Spanish (under development). The private part of the website is under development; it will allow the project partners to store project documents and exchange information and ideas. In spring 2013 the website will include a link to ECOTOUR e-learning materials.
Cible:	Target group - entrepreneurs and managers of tourism SMEs/ Potential beneficiaries - employees of tourism SMEs, tourism policy makers, training organisations, students, people in rural communities, general public
Résultat:	Public awareness campaigns

Produit 'Communiqués de presse et bulletins d'information'

Titre:	Communiqués de presse et bulletins d'information
Type de Produit:	Méthodes de distribution
Texte marketing:	Press releases and newsletters contribute to the dissemination of information about the project and its results. This allows to attract the attention of the target groups, provide relevant information and invite for cooperation in the project. In the future these dissemination tools will also be used to advertise pilot testing and its outcomes.
Description:	A number of articles were published online and in newspapers in project partner countries.8 Newsletters have been developed; they were disseminated through the project website and mailing lists of project partners in their countries. The Newsletters present the project, its progress and results.
Cible:	Target group - entrepreneurs and managers of tourism SMEs/ Potential beneficiaries - employees of tourism SMEs, tourism policy makers, training organisations, students, people in rural communities
Résultat:	Public awareness campaigns
Domaine d'application:	Dissemination activities

Produit 'Questionnaires d'analyse des besoins'

Titre:	Questionnaires d'analyse des besoins
Type de Produit:	Procédure pour l'analyse et le pronostic des besoins de la formation professionnelle
Texte marketing:	The questionnaires have served as a basis for development of Needs analysis report, that will contribute to the development of ECOTOUR curriculum, methodology and learning materials. Needs analysis also allowed to get in touch with the target group, exchange knowledge and information, and promote the expected results of the project and pilot testing.
Description:	In total 113 needs analysis questionnaires were filled in/ collected in partner countries in February-April 2012. The questionnaires present the participants knowledge and opinions on different aspects of ecotourism and related training
Cible:	Target group - project partners/ Potential beneficiaries - entrepreneurs and managers of tourism SMEs, employees of tourism SMEs, tourism policy makers, training organisations, students
Résultat:	
Domaine d'application:	
Adresse du site Internet:	
Langues de produit:	anglais

Produit 'E-learning platform'

Titre:	E-learning platform
Type de Produit:	Enseignement à distance
Texte marketing:	The e-learning environment is the main tool for delivery of the developed ecotourism training programme. It was used to present the training programme to the target group and helped achieve the main aim of the project - improve the skills and competences of people in the tourism sector by introducing an ecotourism training programme in Cyprus, Estonia, Lithuania and Spain, and to encourage ecotourism development in project participants' countries in particular and Europe in general.
Description:	The e-learning environment was developed aiming to: - improve access to training (learning at a convenient time, lower costs) and promote distance learning, - increase effectiveness and interaction in training (forum for trainers and trainees, communication of trainers and trainees from partner countries). The partners chose Moodle e-learning system as the e-learning environment; the learning materials in partner languages were uploaded on the platform. This task has been subcontracted.
Cible:	Target group - entrepreneurs and managers of tourism SMEs/ Potential beneficiaries - employees of tourism SMEs, tourism policy makers, training organisations, students, people in rural communities
Résultat:	Online education and training material (e-learning)

Produit 'Ecotourism training programme'

Titre:	Ecotourism training programme
Type de Produit:	Modules
Texte marketing:	Target group - entrepreneurs and managers of tourism SMEs/ Potential beneficiaries - employees of tourism SMEs, tourism policy makers, training organisations, students, people in rural communities
Description:	The training programme is one of the main results of the project. It helps solve the problem of shortage of ecotourism education and training and supports the development of employment and socio-economic revitalisation of rural economies through increased awareness and skills in ecotourism. The primary target group is people already working in tourism industry - entrepreneurs and managers of tourism SMEs. The training programme has been adapted to their needs, as well as to the training systems, professional standards, cultural and linguistic requirements of project countries, thus providing internationally applicable qualifications enriched by aspects tailored to local environment.
Cible:	Target group - entrepreneurs and managers of tourism SMEs/ Potential beneficiaries - employees of tourism SMEs, tourism policy makers, training organisations, students, people in rural communities

Produit 'Evaluation questionnaires'

Titre:	Evaluation questionnaires
Type de Produit:	Méthodes d'évaluation
Texte marketing:	Evaluation questionnaires were filled in by the participants of pilot testing. In total 70 questionnaires were collected. The analysis of the questionnaires is provided in the Training programme evaluation report.
Description:	The evaluation questionnaires express the opinion of the target group and therefore are an important contribution to the validation of project results.
Cible:	Target group - project partners/ Potential beneficiaries - entrepreneurs and managers of tourism SMEs, employees of tourism SMEs, tourism policy makers, training organisations, students
Résultat:	
Domaine d'application:	
Adresse du site Internet:	
Langues de produit:	anglais

Produit 'Training Program Evaluation Report'

Titre:	Training Program Evaluation Report
Type de Produit:	Méthodes d'évaluation
Texte marketing:	The Report describes the results from the testing and evaluation of the ECOTOUR training modules and e-learning platform in 4 countries (Cyprus; Lithuania; Estonia and Spain), using the methodology as described in the Testing and Evaluation Methodology.
Description:	The Report represents the opinion of the target group regarding the developed training programme and e-learning platform. It is an outcome of validation actions implemented in the project, and serves as a proof that the target group accepted the main results of the project - they agreed that the developed training programme, as well as the way it was presented made a valuable contribution towards ecotourism related training and development of ecotourism in partner countries. The Reports also gives some suggestions for potential improvements.

Kick off meeting

Date	02.11.2011
Description	The kick-off meeting took place in Limassol, Cyprus, 2-3 Nov 2011. The partners introduced themselves, discussed the objectives and workplan of the project, learned about the requirements for project management from the Project Coordinator, as well as from Cyprus National Agency. During the second day of the meeting we visited some agro/ecotourism establishments to see how this type of tourism is developing in Cyprus and to disseminate the information about ECOTOUR.
