Learning Materials for Pharmaceutical Assistants and Technicians' Foreign Work Placements (PHARMA)

2011-1-FI1-LEO05-06161

http://www.adam-europe.eu/adam/project/view.htm?prj=9035

Projektinformation

Titel:	Learning Materials for Pharmaceutical Assistants and Technicians' Foreign Work Placements (PHARMA)
Projektnummer:	2011-1-FI1-LEO05-06161
Jahr:	2011
Projekttyp:	Innovationstransfer
Status:	abgeschlossen
Land:	FI-Finnland
Marketing Text:	The marketing text will be added later.
Zusammenfassung:	The aim of the project is to improve quality and efficiency of pharmaceutical assistant/technician-students' preparation process prior to their work placement periods abroad. In first meeting (Ljubljana,SI NOV 2011) partners compared the required competences and curricula and working life requirements thus mapping out similarities and differences between countries. This was followed by creating content list for the draft version of the booklets. Once draft versions had been developed after first meeting in spring 2012 materials were submitted for peer evaluation. After this materials were translated and partners compared the national draft versions to ensure coherence of the booklets. In second meeting in Cork IE NOV 2012 drafts were checked again and agreement made how content should be revised. Rewriting was done, second drafts were handed in for students testing the materials in spring 2013 and materials were peer evaluated for the second time. After students' feedback and peer evaluation necessary adjustments were and implemented. The last tasks during project were editing and getting the layout completed that were done in early autumn 2013. By early October 2013 materials were ready and on website and printed before Helsinki/Tallinn meeting. National level dissemination started in late October and continues after project's official expiring.
Beschreibung:	PHARLEMA was initiated as LdV transfer of innovation project due to two preceeding successful LdV learning material projects focusing on developing similar learning materials for social and health care IVT-students. Partnership group was established in 2010 and Birmingham Metropolitan College joined in in 2011. The project's aims, action plan and concept followed those of preceeding LDV-projects. First phase was to decide the preliminary content list for booklets after comparison of curricula and pharmaceutical assistants' and techicians' required competences. Thus in 2012 partner colleges developed first drafts which were peer evaluated and translated to facilitate comparison. Late 2012 in second meeting thorough discussion and comparison took place so that second elaborated versions could be made. These versions were also submitted for students to evaluate as there was a number of pharmaceutical students carrying out practical training periods within network of partner colleges as a testing group. Students' feedback was taken into account as well as feedback from second peer evaluation done on national level. Slight modifications were still made and after completing the contents for all booklets editing and layout were completed as well. In late 2013 materials were printed and pdf versions available on almost each colleges' websites. As project ended in October 2013 free downloading had already started and from Helsinki Vocational College's website more than 170 downloads had already taken place before Christmas of 2013!
Themen:	*** Nutzung und Verbreitung von Ergebnissen *** Fernlehre ** Interkulturelles Lernen ** Berufsorientierung und -beratung ** Sprachausbildung * Erstausbildung
Sektoren:	*** Erziehung und Unterricht
Produkt Typen:	Homepage Unterlagen für offenen Unterricht Lehrmaterial

Projektinformation

Produktinformation: Handbooks for Pharmaceutical Assistants' and Pharmaceutical Technicians' Foreign Work Placements have been finalised by 02.10.2013 and are now downloadable as pdf-files from Helsinki Vocational College, Welfare Sector's (formely Helsinki City College of Social and Health Care) website
http://hesotenet.edu.hel.fi/english/etm2/pharlema/index.htm
Website also has links to underlying LdV-projects' similar final products focusing on social and health care work, to booklet descrining how to supervise foreing student during placement period and how to organise practical training periods for students from abroad.
The PHARLEMA materials are also available for dowloading at partner colleges' websites:
http://www.stjohnscollege.ie/courses-2/applied-sciences/pharmacy-assistant/pharlema/
http://www.ssfkz.si/?page_id=4180
http://www.ttk.ee/koostoo/28901/353850/pharlema-1102011-30092013/
Each country specific booklet can be downloaded individually without any username or password. Utilisation of the materials is free for any interested party but alteration of the materials is prohibited as copyrights of the products belong to partner colleges represented by Helsinki Vocational College, Welfare Sector, Helsinki Finland.
Please inform other colleges providing pharmaceutical assistant / technician training of the availability of the materials!

Produkt 'Pharmaceutical Assistant's and Technician's Work Placements - Estonia'

Titel:	Pharmaceutical Assistant's and Technician's Work Placements - Estonia
Produkttyp:	Fernlehre
Marketing Text:	Free learning material / resource for pharmaceutical assistants and technicians willing to carry out practical training period in Estonia.
Beschreibung:	A learning material booklet focusing on Estonian pharmaceutical training and practical training done in Estonia. Booklet includes chapters focusing on educational system, structure of pharmaceutical sector, definition of profession and national legislation.
Zielgruppe:	Pharmaceutical Assistant and Technician students in IVT-training
Resultat:	A booklet in pdf-format for free downloading and utilisation.
Anwendungsbereich:	Foreign students are to use the Estonian booklet for preparing themselves for practical training period within pharmaceutical sector's working life organisations in Estonia.
Homepage:	http://hesotenet.edu.hel.fi/english/etm2/pharlema/index.htm
Produktsprachen:	Englisch

Produkt 'Pharmaceutical Assistant's and Technician's Work Placements – Finland'

Titel:	Pharmaceutical Assistant's and Technician's Work Placements – Finland
Produkttyp:	Fernlehre
Marketing Text:	Free learning material / resource for pharmaceutical assistants and technicians willing to carry out practical training period in Finland.
Beschreibung:	A learning material booklet focusing on Finnish pharmaceutical training and practical training done in Finland. Booklet includes chapters focusing on educational system, structure of pharmaceutical sector, definition of profession and national legislation.
Zielgruppe:	Pharmaceutical Assistant and Technician students in IVT-training
Resultat:	A booklet in pdf-format for free downloading and utilisation.
Anwendungsbereich:	Foreign students are to use the Finnish booklet for preparing themselves for practical training period within pharmaceutical sector's working life organisations in Finland.
Homepage:	http://hesotenet.edu.hel.fi/english/etm2/pharlema/index.htm
Produktsprachen:	Englisch

Produkt 'Pharmaceutical Assistant's and Technician's Work Placements – Ireland'

Titel:	Pharmaceutical Assistant's and Technician's Work Placements – Ireland
Produkttyp:	Fernlehre
Marketing Text:	Free learning material / resource for pharmaceutical assistants and technicians willing to carry out practical training period in Ireland.
Beschreibung:	A learning material booklet focusing on Irish pharmaceutical training and practical training done in Ireland. Booklet includes chapters focusing on educational system, structure of pharmaceutical sector, definition of profession and national legislation.
Zielgruppe:	Pharmaceutical Assistant and Technician students in IVT-training
Resultat:	A booklet in pdf-format for free downloading and utilisation.
Anwendungsbereich:	Foreign students are to use the Irish booklet for preparing themselves for practical training period within pharmaceutical sector's working life organisations in Ireland.

Produkt 'Pharmaceutical Assistant's and Technician's Work Placements – the Netherlands'

Titel:	Pharmaceutical Assistant's and Technician's Work Placements – the Netherlands
Produkttyp:	Fernlehre
Marketing Text:	Free learning material / resource for pharmaceutical assistants and technicians willing to carry out practical training period in the Netherlands.
Beschreibung:	A learning material booklet focusing on Dutch pharmaceutical training and practical training done in the Netherlands. Booklet includes chapters focusing on educational system, structure of pharmaceutical sector, definition of profession and national legislation.
Zielgruppe:	Pharmaceutical Assistant and Technician students in IVT-training.
Resultat:	A booklet in pdf-format for free downloading and utilisation.
Anwendungsbereich:	Foreign students are to use the Dutch booklet for preparing themselves for practical training period within pharmaceutical sector's working life organisations in the Netherlands.

Produkt 'Pharmaceutical Assistant's and Technician's Work Placements – United Kingdom'

Titel:	Pharmaceutical Assistant's and Technician's Work Placements – United Kingdom
Produkttyp:	Fernlehre
Marketing Text:	Free learning material / resource for pharmaceutical assistants and technicians willing to carry out practical training period in United Kingdom.
Beschreibung:	A learning material booklet focusing on British pharmaceutical training and practical training done in United Kingdom. Booklet includes chapters focusing on educational system, structure of pharmaceutical sector, definition of profession and national legislation.
Zielgruppe:	Pharmaceutical Assistant and Technician students in IVT-training.
Resultat:	A booklet in pdf-format for free downloading and utilisation.
Anwendungsbereich:	Foreign students are to use the British booklet for preparing themselves for practical training period within pharmaceutical sector's working life organisations in United Kingdom.
