WENTELS, Women European Entrepreneurs E-Learning Suite

2011-1-ES1-LEO05-35844

http://www.adam-europe.eu/adam/project/view.htm?prj=9650

Projektinformationen

Titel:	WENTELS, Women European Entrepreneurs E-Learning Suite
Projektnummer:	2011-1-ES1-LEO05-35844
Jahr:	2011
Projekttyp:	Innovationstransfer
Status:	abgeschlossen
Land:	ES-Spanien
Marketing Text:	Das Hauptziel der WENTELS ist es, die Wirksamkeit von Frauen den Zugang zum Arbeitsmarkt zu verbessern und unternehmerische Ausbildung und Vernetzung in Spanien, Großbritannien, Bulgarien, Italien und Schweden auf das Problem der hohen Frauenarbeitslosigkeit Preise in ganz Europa zu beseitigen. Dies wird durch die Bereitstellung einer Reihe von e-Learning Entrepreneurship-Kursen und Materialien und eine ernste Angelegenheit Spiel, das die Bedürfnisse der größten Anzahl von Frauen in ganz Europa gerecht wird, die Schulung mit den notwendigen Fähigkeiten und Selbstvertrauen zu "Alleingang" erreicht werden in ihre eigene Firma. Die E-Learning-Schulungen Ansatz würde auch helfen Frauen als Ganzes zu sein "unternehmerischen" in ihren Perspektiven und eher in der Lage, die Vorteile der Geschäftsmöglichkeiten, die sich auf längere Sicht könnten präsentieren zu nehmen.
Zusammenfassung:	Heute sind alle Länder leben und leiden einer tiefen weltweiten Wirtschaftskrise, die dramatische Auswirkungen auf dem Arbeitsmarkt, vor allem im weiblichen Geschlecht. Die letzte Eurostat Arbeitslosenquote veröffentlichten Zahlen zeigen, dass die Arbeitslosenquote der Frauen während der Dezember 2010 in Spanien war 20,7%, mehr als doppelt so der 27 Länder der Europäischen Union in 9,6% gelegen. Im Einklang mit der Strategie Europa 2020 strebt die Europäische Beschäftigungsstrategie, mehr und bessere Arbeitsplätze in der EU schaffen. Die Forschung zeigt, dass neue und höhere Qualifikationen für die Arbeitsplätze von morgen benötigt werden. Um Beschäftigungsmöglichkeiten für alle zu schaffen und einen wettbewerbsfähigen und nachhaltigen Wirtschaft braucht Europa eine hoch qualifizierte Arbeitskräfte in der Lage, aktuelle und zukünftige Herausforderungen zu meistern. In diesem Sinne ist es wichtig, zu entwickeln und anzupassen Bildung und Ausbildung, so dass die Arbeiter gewinnen die Fähigkeiten erforderlich. Mit diesem Hintergrund zielt Wentels Projekt Stand der Technik e-Learning-Suite auf Frauen Integration in den Arbeitsmarkt konzentriert liefern. Aufgrund unserer Erfahrung im Bereich der Bildung, haben wir drei Hauptzielgruppen Frauen Gruppen, in denen wir unsere Aufmerksamkeit und Anstrengungen konzentrieren sollten identifiziert: - Frauen, die auf dem Arbeitsmarkt nach einer gewissen Zeit der Inaktivität zurück, zum Beispiel aufgrund von Mutterschaft wollen ... - Frauen Immigranten - Frauen als Unternehmerinnen Das Ziel der Wentels ist es, die Wirksamkeit von Frauen orientiert Berufsbildung in Spanien, Großbritannien, Italien, Bulgarien und Schweden das Problem der Arbeitslosigkeit in diesen Ländern Wiedergutmachung zu verbessern. Um dies zu erreichen, wird Wentels Suite bieten E-Learning-Material und ein Planspiel zu verleihen diese Gruppen die nötigen Kompetenzen im Bereich der IKT, Management-Fähigkeiten und Techniken, die soziale Integration, Kultur, Coaching, Mentoring und Vernetzung und Telearbeit für Familien Schlichtung; mit der Perspektive einer humanistischen Ausbildung, die Ethik und die europäischen Werte widerspiegelt.
Beschreibung:	Die Website des Projekts wurde in den sehr frühen Phasen etabliert und wird ständig weiter verbessert. Das Projekt-Logo und eine Reihe von Verbreitung Materialien (Präsentationen, Broschüren, etc) sowie Social-Media-Elemente wurden bereits entwickelt und vertrieben.

Projektinformationen

Hinsichtlich der Entwicklung des Spiels haben das Konzept und Markt-Szenarien geschaffen für Demonstrationszwecke zB Starten Sie Dienstleistungen und Handel. Außerdem hat das erste Spiel Prototypen seit September 2012 sowohl in Spanisch und Englisch verfügbar.

Verbreitung Aktivität, über eine Reihe von Methoden, einschließlich Business-Frühstück, Seminare, Präsentationen auf Veranstaltungen, Fokusgruppen, regionale Treffen und regelmäßige Treffen, die Bereitstellung von Informationen über das Projekt auf eigene Corporate Websites oder Kontaktaufnahme bestehende Netzwerke über Newsletter, Pressemitteilungen, Anzeigen, hat bisher schon 13.267 Menschen erreicht.
Die Partnerschaft wird weiterhin unsere Anstrengungen auf die Entwicklung und das Testen der wichtigsten Elemente des e-Learning-Suite konzentrieren: die e-Learning-Kurs und das Planspiel.
Die Konsolidierung Benutzer Bedarfsanalyse werden in Kürze verfügbar sein und eine Überwachung der Bühne des Marktes wird bis zum Ende des Projekts durch elektronische Fragebögen und Berichte gehalten werden.

Ich suche Feedback von Frauen und Interessengruppen über die Relevanz und Nutzbarkeit der Inhalte so weit entwickelt in den verschiedenen Kursmodule ist auch eine geplante zukünftige Aktivitäten. Sobald der Inhalt geprüft und genehmigt wurde, wird es in all die verschiedenen Partner Sprachen übersetzt werden.

Zusammen mit dem Fortschreiten der E-Learning-Materialien wird die Entwicklung des Planspiels auch geplant und das Endspiel Prototyp wird in allen Sprachen verfügbar.

Ein Schwerpunkt in den kommenden Monaten wird die Prüfung der gesamten Plattform. Wir planen, die Produktion der E-Learning-Materialien, Planspiel, Ressourcen und Videos im Juni 2013 fertig, so dass wir haben 3 Monate Zeit für die Durchführung der Prüfung und Validierung und danach beurteilen, die Empfehlungen erhalten. Erforderliche Handbücher und Dokumentationen produziert werden und wir können anfangen zu arbeiten in Richtung der eigentlichen Start des Projekts.

Wir planen die Durchführung weiterer Aktivitäten zur Verbreitung an Frauen und den wichtigsten Interessengruppen ab. Wir nutzen soziale Medien und verschiedenen Veranstaltungen, um das Publikum erreichen wir maximieren. Der Nutzungsplan wird klar definiert und Verwertungsmöglichkeiten erforscht.

Definition und Implementierung, wie die Materialien in die Berufsbildung integrieren ist eine weitere zukünftige Aktivitäten für Periode 2 geplant.

Produkt 'Website Project Portal'

Titel:	Website Project Portal
Produkttyp:	Homepage
Marketing Text:	The website is the face of the project and the place that contains all the elements of the e-Learning platform.
Beschreibung:	The Project Portal is the cornerstone of the project and host most of its products/results. The website and its content are supplied in the five partners languages: Spanish, English, Bulgarian, Italian and Swedish; and it contains: - The project's general information, its aims and objectives, target audience and the composition of the consortium. - A set of women focused online Learning Materials on entrepreneurship and other managerials skills. The aim of the e-learning course is to provide, to the target audience, with accurate and useful knowledge about entrepreneurship and to improve the training offered to women who want to return to the workforce. - A serious Business Game which aims to provide a space for continuous self-directed learning, where one can put in practice the principles of managing a start-up business. As a player, you will have to take decisions in a real market environment that will affect the viability and profitability of your business. - A Knowledge Base with a variety of other valuable resources and useful links to national information sources as well as to relevant entrepreneurship related resources in other countries. Our aim is to help direct target audience towards existing online resources and/or training materials from European and regional institutions, associations and other organisations that could complement your training needs. - The Portal also contain links to feedback questionnaries about the experience of performing the Course and the Game. - The link for playing the Game is also hosted in the Portal. - Social media icons are shown in the website, like Facebook, LinkedIn, Twitter and Google+ - It also provides an Entries (RSS) functionality where the user can subscribe to get informed about the latest developments of the website.
Zielgruppe:	Women returnees to work, women immigrants, women entrepreneurs, young women, trainers, educational institutions, social partners, SMEs & SME intermediaries, work based learning providers.
Resultat:	A comprenhensive, easy and friendly to use e-Learning platform orientated on entrepreneurship.
Anwendungsbereich:	The Website Project Portal holds the products and results of the project.
Homepage:	www.wentels.com
Produktsprachen:	Spanisch Schwedisch Englisch Italienisch Bulgarisch

Produkt 'Demonstration Software'

Titel:	Demonstration Software
Produkttyp:	CD-ROM
Marketing Text:	It shows the content and the functionalities of WENTELS e-Learning suite.
Beschreibung:	The demonstration software holds in one interface a series of messages and videos showing the content and functionalities of project's products. It is available in the five partner languages and it has developed to create awareness about WENTELS platform and for dissemination purposes.
Zielgruppe:	Women returnees to work, women immigrants, women entrepreneurs, young women, trainers, educational institutions, social partners, SMEs & SME intermediaries, work based learning providers.
Resultat:	An easy and funny way to understand what WENTELS project consist of. It is used to create awareness about the project and for dissemination purposes.

Produkt 'Workshops and Seminars'

Titel: Workshops and Seminars

Produkttyp: Unterlagen für offenen Unterricht

Marketing Text: Workshops and seminars open to professionals working with women were developed in all five partner countries to encourage them to use, pilot and provide feedback on the e-learning materials, business game and website.

Beschreibung: Workshops and seminars represent a part of the dissemination actions/efforts in the project. However, a wider range of methods were used across the partnership when disseminating the project and its results/products, such as business breakfast, focus groups, presentation at events, regional meetings, fairs and exhibitions, meetings from other EU funded projects where the partners are involved, providing information about the project on their own corporate websites.

A workshop was held in each partner country during the first six months of the project. The objective was to raise awareness about the project, as well as promote its aims and expected results. Most of the partners incorporated the first workshop as part of their events programme and present the project using a Power Point presentation.

During the second year, the main aim was to introduce the project products to the final users, SMEs, and stakeholders; this was achieved by organising and participating in dissemination activities as previously described.

A number of workshops across the partner countries were organised during the end of year 2 in order to show the e-learning suite and its features, they were targeted to SMEs and their representatives and they were used to gain feedback on the materials. Towards the end of year 2, the project results were ready, a number of “validation” workshops was organised by the partnership to test the project outputs. In order to carry out these activities the attendees were asked to fill a series of online testing questionnaires available on the website. The validation testing continues after the end of the project.

Zielgruppe: Women returnees to work, women immigrants, women entrepreneurs, young women, trainers, educational institutions, social partners, SMEs & SME intermediaries, work based learning providers.

Resultat: Awareness raising of the project and an opportunity to network and gather ideas from women in each partner country.

Produkt 'Reports and Presentations'

Titel: Reports and Presentations

Produkttyp: andere

Marketing Text: A series of reports and presentations were created to manage the project internally and for dissemination and awareness raising.

Beschreibung: This result is formed by a range of reports produced during the life of the project aiming to give an update and overall picture of state of the art elearning and e-assessment technologies, as well as different dissemination materials.

The first report included is the “Project User Needs Analysis” which aims to collect and interpret the results from the surveys performed across the partnership. It also contains user/stakeholder questionnaires feedback from each country and it assesses the situation in each partner country and across Europe with regards to the take up of emerging e-learning technologies.

The second report, in this case produced by Virtech describes the DRUPAL system to develop the project portal as well as the e-learning suite (formed by the e-learning course, business game, video clips section and resources), a User Guide on the Website Maintain was created to assist the partners when using the system, as it allows them to edit, translate and modify content directly on the website.

Third, a Business Game User Guide was produced and embeded into the game, so the user is constantly supported through the different phases of the game. The aim of the User Guide is to set up the scenario of the game and explain certain features of the platform.

Apart from the technical reports, a range of dissemination materials has been produce to disseminate the project, such as brochures.

Other relevant internal reports were created, such as Minutes, the Exploitation Plan, the Commercialisation Agreement, Partner Business Cases, Dissemination Activities Report, WP Leader Report, Work Plan and VET Report.

Zielgruppe: Most of them are for internal use.

Produkt 'Assesment Framework'

Titel: Assesment Framework

Produkttyp: Evaluierungsmethoden

Marketing Text: A set of quizes have been created to self-assess the knowledged acquired by the user.

Beschreibung: Assessment framework to compliment the elearning suite and enable women and their mentors in SMEs, colleges and schools to determine their management, social & entrepreneurship knowledge and skills capabilities.

The assessment framework built in WENTELS is based on and complements the e-learning course and the business game, allowing the learner to assess their skills in those elements.

It consists of a set of questions with answers to choose. The quizzes contain questions referring to the content of both the course and the business game. The learner would need to select the correct answer and at the end of the quiz the score will be indicated, as well as a feedback summary showing all the questions and the correct answers.

A serie of tests have been incorporated into the game in order to check the progress and make the learner aware of the lack of knowledge in certain areas.

Thus, the idea of the develoment of a Diploma not only contributes to the sustantability of the project, but also it constitudes itself as a powerfull assestment tool. The learner will have the opportunity to get the Diploma at an affordable price by completing a rigorous exam about the whole WENTELS e-Learning Suite.

Zielgruppe: Women, trainers, educational institutions, work based learning providers

Resultat: Self-evaluation and the possibility to get a Diploma.

Produkt 'Business Game'

Titel:	Business Game
Produkttyp:	Fernlehre
Marketing Text:	WENTELS business game aims to provide a space for continuous self-directed learning, where you can put in practice the principles of managing a start-up business.
Beschreibung:	The WENTELS business game is a key tool of the e-Learning suite. When you learn by playing, you are reinforcing your training experience and you can easily retain the knowledge acquired. WENTELS business game aims to provide a space for continuous self-directed learning, where you can put in practice the principles of managing a start-up business. As a player, you will have to take decisions in a real market environment that will affect the viability and profitability of your business. There are two different business games, RETAIL and CONSULTANCY; so you can choose the one it most fit your business idea or play both to improve your knowledge. In the RETAIL or commerce business game option, you will start-up a traditional retail shop (e.g. dairy products, food, beverages, etc...) so that you can learn about issues involved in the distribution of physical products. You will then need to decide about areas such as the product range, location of the premise, the initial investment you need and the marketing strategy for the services you provide. On the other hand, with the CONSULTANCY business game option you will be selling a service, so a range of other issues need to be considered that are different from the concerns related to distributing products. In both cases, you will be required to familiarise yourself with the financial statements of your company and will need to learn how to take effective business decisions in order to maximise your profit and so be in the top of the ranking of those who have payed the game. A questionnaire has been created and upload into the website for users feedback.
Zielgruppe:	Women returnees to work, women immigrants, women entrepreneurs, young women, trainers, educational institutions, social partners, SMEs & SME intermediaries, work based learning providers.
Resultat:	Easy access to online serious game with a view to educating females on how to start a business.
Anwendungsbereich:	Women returnees to work, immigrants, entrepreneurs, trainers, educational institutions, social partners, SMEs & SME intermediaries, work based learning providers
Homepage:	http://game.wentels.com/default.aspx

Produkt 'E-Learning Materials on Entrepreneurship'

Titel: E-Learning Materials on Entrepreneurship

Produkttyp: Unterlagen für offenen Unterricht

Marketing Text: Learning materials focused on entrepreneurship and other managerial skills.

Beschreibung: A set of 17 e-learning courses have been developed as part of the WENTELS e-learning suite. The content topic areas included in the materials had been determined mainly by the results of the User Needs Analysis in Work Package 3 that was carried out by the entire partnership, and supported by the wide experience of its members.

The WENTELS e-Learning Course offers a comprehensive set of training materials focused on entrepreneurship and other managerial skills needed to work in todays labour environments.

The aim of the Course is to provide, to the target audience, accurate and useful knowledge about entrepreneurship and to improve the training offered to women who want to return to work.

The topics offered by the Course and the Game, will help to enhance the learning experience and assist the user with gaining confidence and new skills.

In addition to this, the e-learning courses contain a number of external links at a European level but also partner country specific. Each of the courses includes a “Quiz” at the end to assess the learner’s knowledge, as part of the assessment framework.

The Course is available in five languages: English, Spanish, Italian, Bulgarian and Swedish.

A questionnaire has been created and upload into the website for users feedback.

The Course covers subjects that all entrepreneurs need to know about in order to run their business successfully. Topics covered are shown in the index below:

INDEX
