1 Introduction

One of the monitoring procedures set in place to estimate the Impact of the project, was the capturing of certain metrics during the training sessions.

Seeing as the training was the primary vehicle with which the partners effectuated the Transfer of Knowledge, as well as a major dissemination activity.

To this end it was deemed useful to capture a range of metrics describing the participants of each session to be able to paint a picture of the project's impact.

2 Raw Data Collected

Participants in the Training were asked to provide the following information regarding themselves:

- Group
- Educational Field
- Educational Level
- Educational Sector

The Feedback provider by the Trainees follow, as captured by the partners delivering the Training (for concise lists of the dropdown menus used to provide the answers, please see the Annex at the end of the document).
