VocTEL conference: Case Studies and Tools in Practice

The VocTEL conference: Case Studies and Tools in Practice took place in Athens, on June 17-18, 2015.

This first VocTEL conference aimed to link real market demands for training and academic research in the vocational training domain. The conference focused on the following topics:

- Experiences & Case Studies in Vocational Technology Enhanced Learning;
- Curriculum Design And Innovation (Pedagogy And Methods);
- Technologies: Practical Issues and Demonstration of New Tools.

The keynote speakers were Dr Niki Lambropoulos, Greece; Dr Liz Bennett, UK; Dr Charalambos Vrasidas, Cyprus; Dr Mariya Aleksandrova Ivanova, Bulgaria.

The conference attracted more than 100 participants from European countries.

Participants had the opportunity to discuss recent developments with international academics and vocational trainers as well as become aware of technology enhanced learning methodologies for training and case studies.

The final programme of the conference and PowerPoint presentations are available on the conference website: <http://vocTELconference.eu>

Last partner meeting: Wales, September 8-9, 2015

The last VocTEL partner meeting took place in Wales on September 8-9, 2015. During the meeting the partners from Bulgaria, Cyprus, Greece, and UK had the opportunity to review and reflect on the VocTEL experience as they worked on finalizing the project. Partners also discussed the impact of the project in the partner countries and more specifically the impact on VET systems and practices with regard to TEL delivery. They also brought forward ideas for further development of the VocTEL experience. For more information on the VocTEL programme, please visit the website: <http://www.vocTEL.eu/>
