Partners:

**Judith Langner** (DE) Langner is working as a scientific co-worker at the German National Guidance Forum in Education, Career and Employment (*nfb*) since 2009. She particularly supports the Federal Ministry of Education and Research with the cooperation in the European Lifelong Guidance Policy Network (ELGPN). Until 2014 was engaged in the German Coordination Process for Quality Development. .

**Laurence Martin** (FR) Technical and legal Advisor in the French Trade Union FORCE OUVRIÈRE since 1998, first in the sector in charge of employment for 10 years, then in the sector working on VET since 7 years now. She participates in national inter-professional negotiations: reform of vocational training in France in 2009 and 2013, modernization of the labor market, employment of young people, older people. She is a spokesperson for the trade unions in CEDEFOP.

**Luis Carro** (ES) doctor in pedagogy. Professor of Research Methods in Education, at the Department of Pedagogy of the Faculty of Education and Social Work since 1989. Director of the Observatory of Validation of Professional Skills (Observal) and also the Center of “bilan de compétences” at the University of Valladolid. He is responsible of learning units for preparing professionals of career guidance.

**Paolo Serreri** (IT) SERRERI is Professor of Methodologies and techniques for adult guidance at the University of Roma 3. In the same University he also teaches at the Laboratory of Bilan de Competences. For more than 25 years he has been dealing with orientation, lifelong learning and adult education. He is currently President of the FECBOP.

**Serge Rochet** (FR) is one of the creators of quality assurance system in bilan de competences promoted by the FECBOP on the European level. He is also a certified auditor for the French national federation of Bdc centres, the FECBOP, and responsible for training, implementation and quality audit of guidance centers in Europe. He is the French national delegate and expert for the methodological development of bilan de compétences in France.

**Vanessa Dodd** (UK) is a researcher at the International Centre for Guidance Studies. She is a trained social scientist in both quantitative and qualitative methods. She has worked on various projects for non-profit organisations at both the local and international level. She has recently published on the economic benefits of career guidance and the role of digital technologies in career guidance. She is currently managing several projects to evaluate the impact of a variety of career education and guidance interventions.
