Interactive Learning Space for developing entrepreneurial skills in cultural assets and Heritage

Through the adaptation and integration of innovative contents of a LLP Project, I-CAMPUS, the present project proposal, ST-ART APP, aims to develop skills and enhance self employability by creating connections between VET, education and labour market by working with transnational partners in the sector of Creative enterprises and Cultural Assets and Heritage.

Enterprise start-up is a relevant job placement opportunity and the new programme Europe 2020 aims to stimulate it in order to support European economic growth.

ST-ART APP aims to develop skills and enhance self-employability by creating connections between VET, education and labour market in the sector of Cultural Assets and Heritage through working with transnational partners.

The project aims to define specific didactic tools (ON-LINE PLATFORM social and WEB 2.0 - MOBILE APPLICATION for IOS and ANDROID) and methodologies for supporting beneficiaries in training and further training activities in the acquisition and the use of knowledge, skills and qualifications to facilitate personal development, employability and participation in the European labor market. The project aims to improve sectorial identification (cultural and creative enterprises) and anticipation of skill and competence needs and their integration in VET provision.

Through the project we will contribute to:

- the development of the Community as an advanced knowledge-based society;
- improve the quality and to increase the volume of cooperation between organizations providing learning opportunities, cultural and creative enterprises, social partners and other relevant bodies throughout Europe (IT, EL, PT, HU, KR, UK, DK);
- enhance the attractiveness of VET in the domain of development of enterprise in Cultural Assets, Heritage and creative industries, facilitating the development of innovative practices in the field of vocational education and training other than at tertiary level, and their transfer, including from one participating country to others;
