

Intermediate evaluation survey

C.B.G.G - Co-Building a Good Guidance

Intermediate evaluation survey

All the partners of C.B.G.G Project are kindly asked to fill in this questionnaire before Monday 15th September 2014.

Please indicate your answers by selecting one of the items, or writing down your statements when needed!
Please comment your answer adding more detailed information and remarks.

The survey aims at evaluating the state of the art of the project and the degree of involvement of every partner.

The questionnaire will particularly focus on these aspects:

- Monitoring and analysis of the Project management

-> to verify the respect of the timetable, as well as the levels of commitment, cooperation and participation (during the meetings and in the development of work packages), in order to foster adaptations and continuous improvement of the process

- General coherence and pertinence of project progresses and outcomes

-> with respect to the objectives defined in the application (respect of deliverables, perceived quality by the partners and stakeholders of the sector...)

Many thanks for your collaboration!
