

ADVANTAGES OF THE E-EMPORIO e-Learning .

1.The e-learning platform, e-learning Toolkit can be adapted in the interface language that each trainee chooses by just clicking on the flag of the country in which he wants to see the interface in.

This gives him the advantage to have in his language all the instructions as well as the help needed in order to run the course.

2. Help for each trainee starts from the first page of the platform by clicking on the icon “how to use e-learning toolkit”

This gives the possibility, with the use of the Captivate technology, to have a live Manual on how the platform is being used, this means on how to interact by learning step by step its functioning.

In parallel, with the use of tts-text to speech technology, instructions are given also by voice helping in this way the students to understand them and supporting students with visual impairment.

3. The course is not provided only in text format but also it is an interactive learning material because:

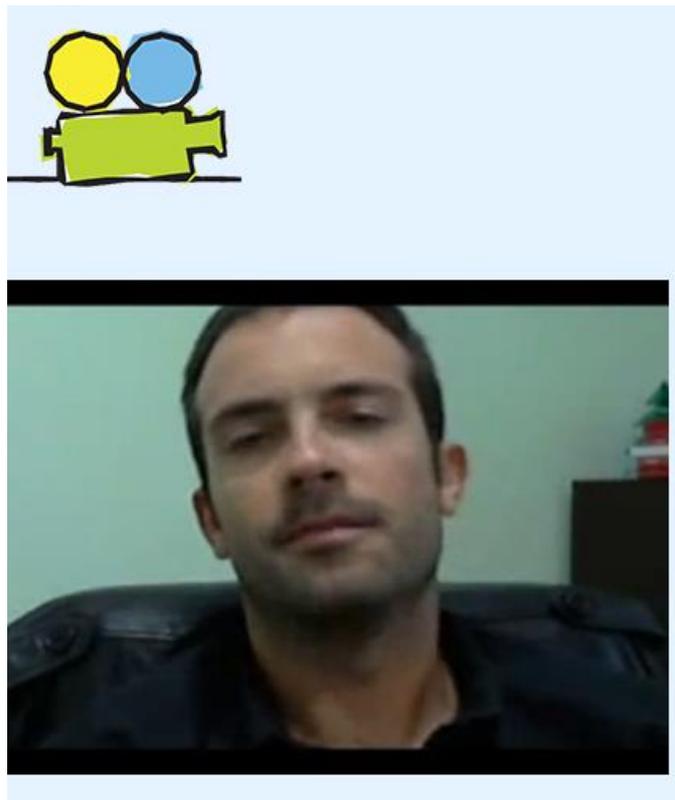

A. Active flash objects direct us in the chapter in which we are...

B. In the text, there is interaction with the glossary so if we meet a word the explanation of which exists in the glossary, we can click on it and see what does it mean:

F. Information is not provided only with texts but also with the use of videos and audios.

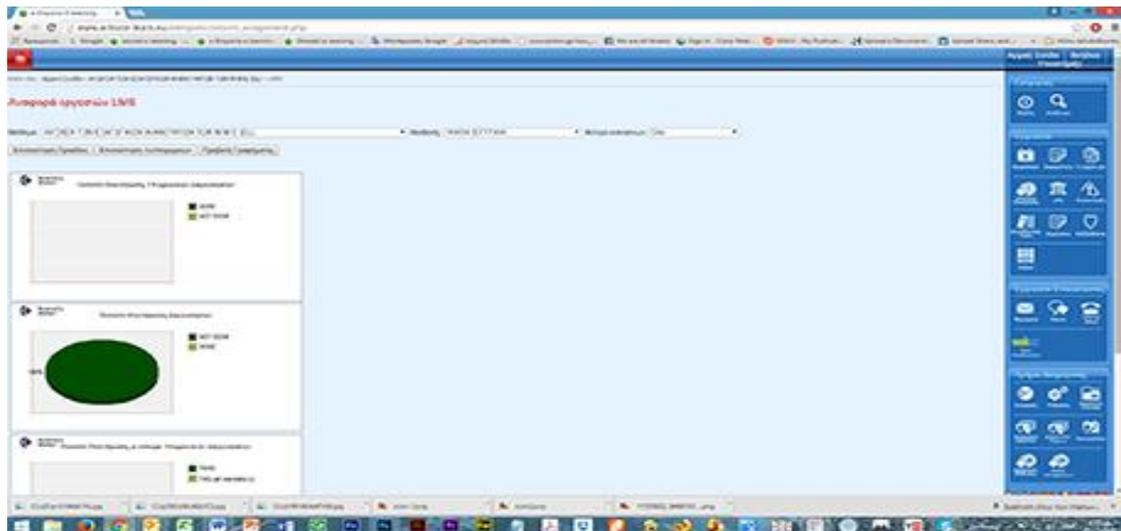

4. The user has many tools to interact with the trainers and the classmates.

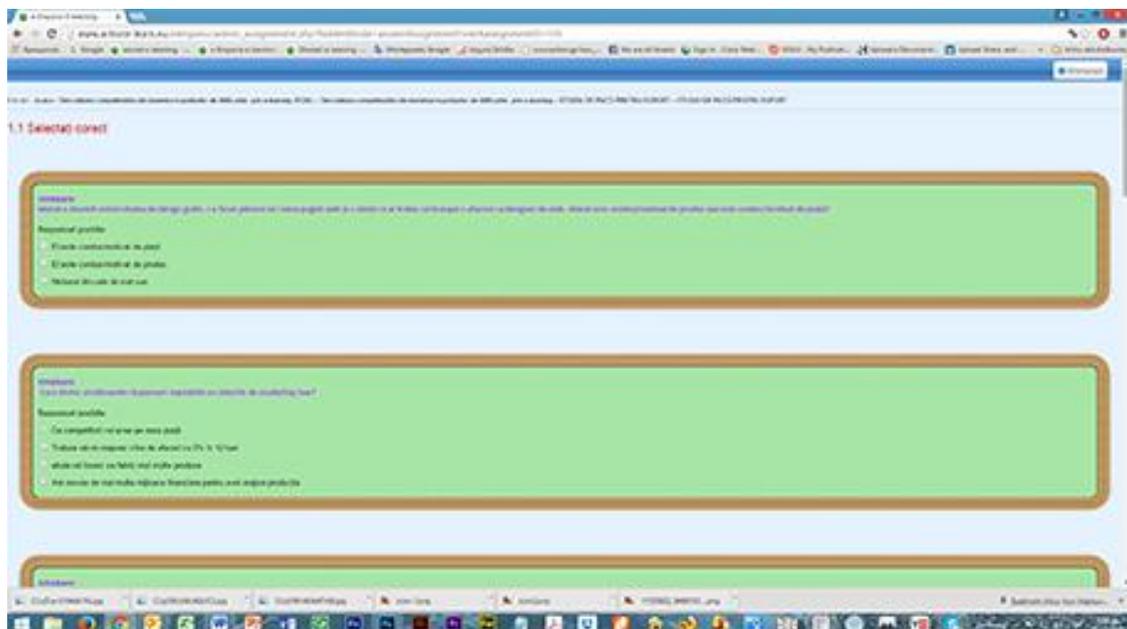

With message, voice mail, through the forum or through the use of web conference.

5. The trainer is able to monitor continuously the progress of the students through the LMS system.

6. There is certification of the progress of the students through interactive exercises.

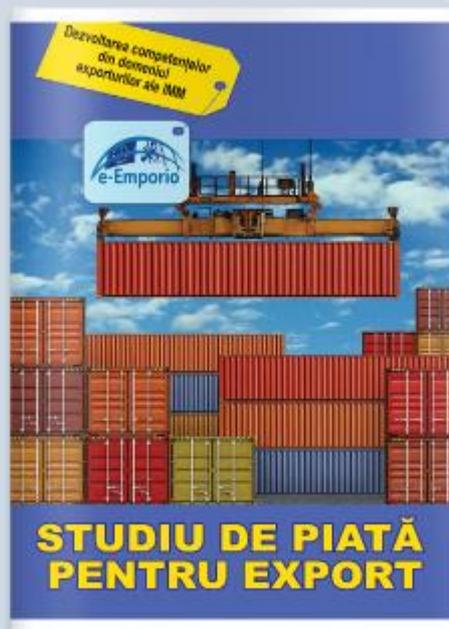

7. The student, according to the hardware it has, has the possibility to have access in the educational material in the following formats:

- e-learning
- pdf doc
- flip-book
- e-book

facilitating thus the users of pads and smart phones.

STUDIU DE PIAȚĂ PENTRU EXPORT Flip-book
