### NET work

In November 2008 the project Leonardo da Vinci ECVET TC NET was founded in cooperation with important national and international tourism companies, associations and tourism schools.

ECVET TC NET is a network project for the development of an **ECVET model**. The main objective is the achievement of transparency of European touristic qualified people. The development of **competence grids** for several touristic professions (e.g. waiter, cook, sales and marketing assistant) is the headstone of the ECVET model.

For the implementation of the model in Europe, a **handbook** with full details and information will be created. It should give an overview on the current situation in the project partner countries and describes the different steps of the process from competences to learning outcomes to allocated credits. It also recommends the use of a Memorandum of Understanding and a certificate and provides the reader with respective templates. Tourism professionals, who will be trained by this model, should get an ECVET certificate.

Involved project **partners** are hospitality and tourism schools, VET providers in tourism and catering, universities, enterprises in tourism and catering as well as staffing agencies:

Tourismusschulen Bad Gleichenberg | Austria  
Berufsförderungsinstitut Steiermark | Austria  
TEMPO TRAINING & CONSULTING s.r.o. | Czech Republic  
Baltic College- University of Applied Sciences Güstrow | Germany  
MIKRO PARTNER GmbH | Germany  
Escuela de Hosteleria de Sevilla | Spain  
WINNOVA | Finland  
Spirit Hotel Thermal Spa | Hungary  
Swiss Occidental Leonardo | The Switzerland  
Visja Strokovna Sola Gostinstvo Maribor | Slovenia  
Selcuk University | Turkey  
Coleg Llandrillo | UK
