Project Information

Title: AIREA

Project Number: LLP-LdV/TOI/2007/SE/1887

Year: 2007

Project Type: Transfer of Innovation

Status: granted

Country: SE-Sweden

Marketing Text: AIREA aims to create an e-learning academy that by best-practice learning models to build an innovative learning platform for the aviation industry workers.

Summary: AIREA is a pilot project funded by the EU's Leonardo da Vinci program. AIREA is working to fulfill the following goals:

1. Establish priority needs for airport regions in regards to vocational training.
2. Find the current best-practices available that are suitable for the project.
3. Build a digital learning platform suited for vocational training.
4. Adapt one or two best-practice modules so they will work throughout all EU countries in terms of learning and contents – and adapt these modules to fit the platform.
5. Analyze the results of these modules and spread them to the wider community.

Description: AIREA is a pilot project funded by the EU's Leonardo da Vinci program. AIREA is working to fulfill the following goals:

1. Establish priority needs for airport regions in regards to vocational training.
2. Find the current best-practices available that are suitable for the project.
3. Build a digital learning platform suited for vocational training.
4. Adapt one or two best-practice modules so they will work throughout all EU countries in terms of learning and contents – and adapt these modules to fit the platform.
5. Analyze the results of these modules and spread them to the wider community.

Over a period of two years, the project will work towards these goals. A successful project result will be the first building block in creating a new, improved and pan-European range of vocational training options for the aviation and airport industries.

Themes: *** Open and distance learning
 *** Vocational guidance
 ** ICT
 * Lifelong learning
 * Higher education

Sectors: *** Public Administration and Defence; Compulsory Social Security
 *** Transportation and Storage
 * Information and Communication
 * Education

Product Types: others
 evaluation methods
 website
 modules
 open and distance learning
 DVD
 teaching material

Product information: This is a pilot project which aims to find the priority vocational education needs in the airport regions and find the best-practices for the project.

Building a digital learning platform suited for vocational training.

Adapt best-practise modules thus they can apply to all EU countries.

Products

- 1 Platform AIREA project
- 2 Website
- 3 Marketing movie

Product 'Platform AIREA project'

Title: Platform AIREA project

Product Type: others

Marketing Text: A prototype platform based on open source technology made for a blended learning environment on vocational training.

Description: A prototype platform based on open source technology made for a blended learning environment on vocational training.

Target group: Vocational training

Result: A prototype platform based on open source technology made for a blended learning environment on vocational training.

To log in
student1/student1
teacher/teacher

Area of application: Anyone interested in a blended learning platform may use the platform since it is based on open source code under the regulations of GPL
