

QVETIS-Training in Quality: VET and Enterprises is a project aimed at improving the Vocational Training System by the development of Quality standards within the management processes of centres involved.

With the support of the Lifelong Learning Programme, QVETIS is being developed in 6 European countries by the involvement of 7 organizations: Fundación Metal Asturias and Balear de Desarrollo y Formación (from Spain), GAB-Munich (Germany), European Center for Quality (Bulgaria), PIA-Velenje (Slovenia), Vytautas Magnus University (Lithuania) and Regional Development Agency Senec-Pezinok (Slovakia). In Spain, also, the Public Service of Employment from the Govern of the Principality of Asturias acts as a collaborating partner whilst the General Directorate for Active Policies, Occupation and Training from the Govern of the Balearic Islands is a silent partner.

Focused on the design and implementation of a Quality Management System for Continuous Vocational Training Centres, QVETIS started running in July, 1<sup>st</sup> 2008 with an initial duration of 16 months.

**Lithuania**

European Center for Quality Ltd.,  
**Bulgaria**

PIA, d.o.o., Information Systems and Services,  
**Slovenia**

Regional Development Agency Senec-Pezinok,  
**Slovakia**

The 4<sup>th</sup> transnational meeting took place in Slovenia, in small town called Moravske Toplice, from 11<sup>th</sup> to the 12<sup>th</sup> of October 2009.

There were two main goals on that meeting:

- to evaluate second-part audit of the ISO standard implemented in the project partners by project promoter
- to make a plan of actions pending and still to be done in last period of the project

Last part of the September and beginning of the October was very intensive for the project promoter. Mrs. Begoña Codina González and Mrs. Marta Méndez Fuente concluded five internal audits (second-part audits) of ISO implementation in Germany, Lithuania, Bulgaria, Slovakia and in Slovenia. Results of the audits were presented on the translational meeting.

On the picture on the left you can see the internal audit made in the Zavod Anton Martin Slomšek, situated in Maribor, Slovenia.

Results from the internal audits was satisfactory; still, auditing group suggested some improvements to the partners, which will be corrected before final audit will take place.

We all agreed that October and November will be very important month for the project. Final audits will be performed in all participating countries in their partners organisations. Because of that main plan was how to do all preparations for audits, prepare partners, make all necessary uncompleted tasks and finalize project with best results.
