A representative of ANCI participated to the Conference with a specific speech on the training of trainers within the national reception system of SPRAR.

Consortium, through the invitation to the Final Conference in Brussels, disseminated the project results to relevant stakeholders in the asylum field at national and European level. Specifically representatives of ECRE, UNHCR- Belgium and Italian regions (Sicily, Tuscany, Emilia Romagna, Veneto, etc..) present in Brussels are invited to give a thematic contribution as speakers in the Conference.

D. OTHER	
<p><u>Problems encountered with regard to training system for refugees in Italy:</u></p>	<p>By the national contest emerging in the framework research on refugee training it is clear that the difficulties are more than the facilities, in terms of methodologies, available instruments, financial resources, and lack of coordination within the trainers. During the pilot tests we experienced how the trainer of refugees / migrants, especially on the linguistic aspects of literacy, was not specifically familiar with forms of support electronic training, preferring instead to share through face to face interactions in certain times and with direct comparison to the experiences and difficulties, with his impressions and experiences not necessarily coming through as effectively through web interactions.</p> <p>In addition there is not yet a formal training system for trainers active in asylum field, tested and applied at national level. We will encourage this goal by involving the Deeper Methodology in the training system adopted by SPRAR, as declared by ANCI as associated partner.</p>
<p><u>Problems encountered in implementation of project</u></p>	<p>We do not encounter problems regarding the partnership as whole. As CIR we act in intermediating the relations to Comune di Catania and CIRE' due the specific administrative problems encountered during the implementation.</p> <p>The assistance guaranteed by Dida Network is ready and satisfied at administrative level.</p>
