Final Conference in Austria (5/9/13)

As was planned from the early stages of the project, Two o'clock's Final Conference took place in BEST premises, in Vienna, on the 5th of September 2013. This conference had more the character of a workshop: All partners organized excersices for participants, based on LC and TLA methodology. The implemented activities raised a lot of discussion.

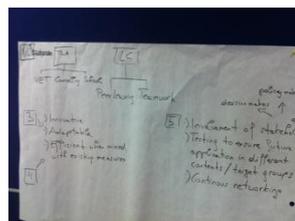

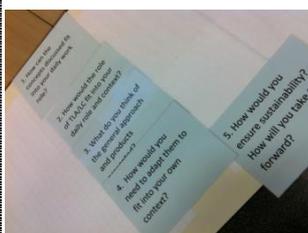

Represented Countries/ Organizations and their stakeholders presented their impact and results of piloting phase, but in a more experiential approach. All agreed that TLA and LC methodologies are important for every national training system, even if the level of adaptation was different.

Evaluation was based on sub-groups procedure, and all conclusions and suggestions are included in the Final Valorization handbook, that is produced by IEKEP.

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Exploitation/ Sustainability

Actions

To foster the 2oC products' sustainability, all project partners have organised a large variety of events. They range from discussion rounds with national and international stakeholders to conferences and workshops.

These activities have created interest in the products' future use beyond the project partnership, being a novelty in Turkey e.g. and having large potentials for the use in many other coaching and management situations in the other countries in addition to those foreseen, i.e. for learning coaches and teaching and learning advisors.

ECVET system and Coaching

Under the work package Common Framework for EQF and ECVET of the TWO O'CLOCK project, led by the Portuguese partner ISQ, it was developed the European Profiles for the Teaching and Learning Advisor (TLA) and Learning Coach (LC), in accordance with the EQF and ECVET framework, as well a Common Guideline to support the future integration of both profiles in existing VET programmes in partners' countries. During the final conference of the project, ISQ had the opportunity to share with the participants the contribution of the TWO o'CLOCK to the European agenda for the implementation of EQF/ECVET across countries, particularly in United Kingdom, Portugal, Austria, Greece, Bulgaria and Turkey. Both documents are available on the project website.

All the info you need is available on our site!
