The purpose of this document is to summarize the results from the analysis of the feedback the participants of the **3rd ladybizIT Roundtable Event** provided, which took place on November 15, 2012 in Athens, Greece and was organized by ECWT.

In agreement with the processes clearly described in the **ladybizIT** Quality and Evaluation Plan, after the end of the roundtable, a questionnaire, which was developed with the assistance of project leader Militos Emerging Technologies & Services, was distributed to all the participants with the aim to collect their feedback and evaluate the event that took place.

After the questionnaires were collected, the results from the 11 respondents were analyzed in order to provide an overall statistical summary of the results which could allow for a better evaluation of the participants' answers and conclusions to be drawn. The responds are listed more analytically in the Annex section of this report and all questionnaires are available upon request. Indicatively, the results were:

- The **overall organization of the roundtable** was evaluated as 'Excellent' by 73% of the participants and 'Very Good' by the remaining 27%.
- 55% of the participants considered themselves to be familiar with the **topics discussed in the roundtable**, following the end of the roundtable and the remaining 45% said they knew the subject well.
- The **selection of topics** discussed was considered as 'Excellent' by 82% and as 'Very good' by 18% of the participants.
- All participants (100%) stated that after the end of the event they had learned more about **how ICT can facilitate entrepreneurship**.
- Regarding **time allocation**, all participants (100%) considered that the time devoted for the event was as much as it should have been.
- When asked about the **venue** where the roundtable was held, all participants (100%) felt that the selection of the place was 'Excellent'.
- **All participants (100%)** were interested in staying updated on the progresses of ladybizIT

In summary, the feedback from the participants of the **3rd Roundtable Event** was highly positive. The ratings show that the vast majority of the participants considered it to be an effective event that allowed them to understand how ICT Tools can support female entrepreneurship. The organization was considered to be excellent by the majority and the topics discussed were valuable to the partakers. It is also important to note that all participants (100%) stated that they would be interested in following the updates of the ladybizIT project as well as the results from the **ladybizIT "More technologies? More women entrepreneurs!"** conference. All this feedback clearly shows a rather successful roundtable event and a successful implementation of all aspects of the project so far, which are very rewarding and indicative of the so far successful consortium cooperation.

Annex

Third Roundtable Evaluation

November 15, 2012

1. Η οργάνωση του roundtable ήταν	Εξαιρετική 8	Πολύ καλή 3	Ικανοποιητική 0	Κακή 0	Πολύ κακή 0
2. Το περιεχόμενο της συζήτησης	Το γνωρίζω καλά 5	Είναι οικείο 6	Δεν το γνωρίζω καλά 0	Δεν το γνωρίζω καθόλου 0	
3. Το περιεχόμενο της συζήτησης ήταν	Εξαιρετικό 9	Πολύ καλό 2	Ικανοποιητικό 0	Κακό 0	Πολύ κακό 0
