

SUMMARY

5th Partners meeting
Barcelona, 8-9th July 2013

Monday, 8th July

Present:

- Krisztián Sován (P4 Lukács SZKI, Győr, Hungary)
- Tibor Rákóczi (P4 Lukács SZKI, Győr, Hungary)
- Bert Michielsen (P1 Omneon, The Netherlands)
- Alexander Cavallar (P3 European Consulting Education, S.L., Spain)
- Ammir Farokhi (P2 Deltion College, The Netherlands)
- Klaas Bakker (P2 Deltion College, The Netherlands)
- Adrienn Paukóné Várnai (P0 EBC*Licensing Magyarország Kft., Hungary)
- Kovács Szabó Antalné (P5 Tanbusz, Hungary)
- Lieke Michielsen (P1 Omneon, The Netherlands)
- Nikolett Gulácsi (P0 EBC*Licensing Magyarország Kft., Hungary)

8:45 Meet at the Hotel and walk together to the meeting's place

09:00-09:30 Welcome note and the first preparations

Chairman: Alexander, P3

Alexander: Welcome note

09:30 – 13:00 How far we are? What we have achieved? Challenges, Agency

All the project Partners gave their reports of the progress:

P1. Omneon

Lieke Michielsen (P1) Report about the results of the questionnaires round 1 (more details in the presentation)

15 persons answered by now. It was very positive. LB is an improvement for most of them, more than to study in the traditional day.

There were some crashes with the system, but it was happening only during the homework at home, where they have problems with ICT.

It would be good to use the LB on other the operating system like Linux, Android, etc. – It is running on iPad, Tablets and the system is always updating.

Alexander will interpret the results and its' solutions.

Gabriella made a whole overlook in the translation of the system pages, and corrected.

We have made other translation between Lieke and Miklós.

We will have to involve an other IT person for the future, to ensure the project results' sustainability.

Deadline for the corrections of the suspected items will be 26th July, then 1 week of the last check, then 2 weeks for the finalization of the completed HU LB.

- Progress of LB finalization
- Progress of the sustainability contract

P2. Deltion

- Activities done

Ammir Farokhi

we had to conclude the two trainings in Győr and Zwolle. We have prepared our reports. ***(Nikolett send the report to the partners.)***

Some restrictions were suspected during the training. The language barrier was the biggest barrier, so it was a very big help that Gabriella was involved into the project. There were some deformations in the translation because of the translation from Dutch to English and then to Hungarian. With the help of Gabriella we could clear these defects.

Less people were trained, but they were trained more deeply and from the first week, they were very much involved in the project. We offered helpdesk, but it was not really used.

P0. EBC*L Hungary

- Project management, financial issues
- Evaluation of the monitoring event - short report

P3. EBCL Spain

- Quality management

There was no time and no complete information with the results of the pilot testing and the impact study. I will prepare my report after the meeting when information will be available.

We will send to all the partners the report.

Dissemination: It would be good to invite also Volkswagen Academy for the final conference. It would help us to disseminate the project results here in Spain, because here the most wanted products are coming from the companies, so education is based on the company's requirements. For this reason, we would like to invite VET providers for the final conference.

PVA: Our common goal would be to find working places maybe also abroad, not only in HU. This is also an added value.

The next project quality report and the updated quality handbook will be sent out to the partners.

P4. Lukács

- Implementation
- Pilot testing – report will be sent to all the partners
- Impact study – theoretical education (focus group)

This Friday will be the last day of the impact study, students of Lukács, teachers and the tutor will fill the questionnaires and also the testing.

The questionnaires will be ready for the second testing round by 12th July morning.

Partners agreed to create a video of the project in September.

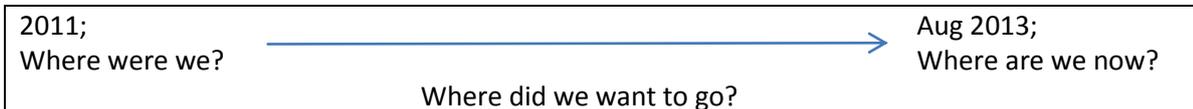

P5. Tanbusz

- Impact study – practical education (focus group) – report will be sent to all the partners

13:00-14:00 **Lunch in Restaurante La Bodega, Plaza Molina 2**

13:00 – 17:00 **Being continued: How far we are? What we have achieved? Challenges, Agency**

- **EU added value** (What is the advantage of a European project?) → find working places in the whole of the European Union; gain experience abroad. Thus:
 - Invite companies into the project, invite them to the final presentation in Budapest (3 October 2013, 10:00-16:00)
 - Invite VET schools to the final presentation in Budapest (3 October 2013, 10:00-16:00).
 - Who else to invite for the final conference?
- **Final presentation in Budapest**
Make a plan (quality management & project management):
 - What has been done?
 - What still needs to be done?
 - Who will come?
- The backbone of the whole project of the dissemination
What did we do?

What do we still need to do?

- Focus on the innovation, on the higher goal.
The **innovation** is: the future of education, e-learning within education. How will e-learning affect the learning in Hungary. The LB is the means, but not the final product (so don't focus too much on the translated LB).
- This project will never be ready, it will always be a work in progress.
- **Presentation Krisztián about the results of the pilot testing** at Lukács School:
 - The pilot testing was done for the automotive sector / car industry
 - 2 groups at Lukács have participated in the pilot testing:
 - 13 students who were using The LB
 - 13 students who were studying in the traditional way
 - (9 students from another school have participated as well)
 - In general, all the students and teachers were very positive about The LB. They like using it and find it a very usable system. They find The LB good / teachable.
 - LB students were more active and achieved better results than those students who were studying in the traditional way.

- Students are open to the innovation
- People like the pictures in LB
- A problem is that students can see the theory and the test at the same time (but students can also look on Google) → It is a wish for the future at Lukács School (not part of the project) to make this impossible for some tests, or to make a time limit to tests so there isn't sufficient time to search for information.
- Grade giving system; there is an error. If a student does nothing at all, he still receives for instance 2 points (it is a setting-problem in The LB).
- Teachers have to add student's results of the open questions manually. These are not added automatically (it is a wish for the future that this will be possible automatically).
- A very positive result: all the students were more active in their school-related work than they were in 'normal' education.
- Homework also good, but 2 or 3 students couldn't open The LB at home. This could have several non-LB-related reasons:
 - The internet?
 - Computer failures?
 - Free time?
- The LB is a good connection to the HU framework of education, which is changing every day and is shifting more and more towards electronics.
- We will finish off the first questionnaire round now. All the results that we have received thus far are the result of the 1st questionnaire round.
The second questionnaire round will be made available in class on Friday 12 July 2013.
- **Tanbusz garage pilot testing feedback:**
 - Regarding online learning systems known to students: the LB is most effective.
 - Content can be reached very fast, students can find the answers to questions faster
 - Positive that teachers can add content
 - Up-to-date, very modern
 - Positive that can learn anywhere
 - Theory & practice; what they learn in theory, they can immediately apply in practice (= very positive)
 - Overall: The LB is pointing to the future. It is a good and logical system.

	Task Name	Aims	Resp. Partner	Co-op. Partners	Start	Finish
WP6	Testing of functionality					
A19	Create a test guideline	to create a test guideline to support the testing process in the schools	P0	all partners	01.05.13	10.06.13
A20	Testing	to test the national e-learning version in the partner organizations in Hungary	P0	P4	13.05.13	28.06.13
A21	Evaluation and correction	to evaluate the testing and make correction, if it's necessary	P4	P0	29.06.13	15.08.13
R7	Test guideline	to support the testing process in the schools	P0	P1		10.06.13

Education and Culture DG

Lifelong Learning Programme

Project Acronym: LearningBox
Project Nr.: LLP-LdV-TOI-2011-HU-006

R8	3 Summaries about the result of the testing	to help for the implementation team to make the correction in the system	P0	P1		06.07.13
R9	Completed Hungarian E-learning program	The transferred product meets today's requirements, environmentally friendly, well applicable for example in disadvantaged countryside areas. The product is a high quality e-learning solution which assures the longer-term sustainability of the project.	P0	all partners		15.08.13
WP7	Impact study					
A22	Theoretical education	to inspect the result of the theoretical education with support of the program	P4	all partners	01.03.13	09.05.13
A23	Practical education	to inspect the result of the practical education with support of the program	P5	all partners	02.05.13	09.05.13
A24	Evaluation	to investigate the efficiency of the LearningBox through the result of the pupils	P4	P5	01.07.13	31.07.13
A25	Discussion about the results and best practices	to exploit of the project results and to learn from each other's best practices	P4	all partners	07.08.13	09.08.13
R10	2 Summaries of the impact study	to elaborate the national strategies in exploitation of the project result and to share the best practice and discuss it personally	P4	all partners		31.07.13
WP10	Dissemination and valorisation					
A35	Actualisation of web sites of partners	to disseminate actual information	P0	all partners	02.11.11	31.10.13
A36	Creation of a database	to have names and CVs of trainers can be trained after the project in the frame of a Train the Trainer seminar and to provide the sustainability of the program with the transmission of the knowledge	P0	P4, P5	03.06.13	28.06.13
A40	Distribution of flyers	to disseminate information	P0	all partners	03.09.12	31.10.13
A44	Distribution of brochure	to disseminate information	P3	all partners	03.09.12	31.10.13
A45	Content of the final press conference	to design the conference programme	P0	all partners	01.07.13	30.08.13
A46	Organisation of conference	to organise the conference	P0	all partners	02.09.13	30.09.13
A47	Evaluation of conference	to evaluate the impact	P0	all partners	01.10.13	31.10.13
R16	Actualised web sites	to disseminate actual information	P0	all partners	02.11.11	31.10.13

Education and Culture DG

Lifelong Learning Programme

R17	Database of potential trainers	to have names and CVs of trainers can be trained after the project in the frame of a Train the Trainer seminar and to provide the sustainability of the program with the transmission of the knowledge	P0	-		28.06.13
R18	Flyers and brochures	to disseminate information	P0	-		31.08.12
R19	Final press conference	to inform the public about the outputs and results of the project	P0	-		30.09.13

20:00 Dinner in Restaurante La Gavina, Plaza Pau Vila, 1

Tuesday, 9th July

09:00-15:00 **What's next?**

- Continued follow-up program development and planning development
- Evaluation of the pilot testing, problems, challenges, solutions
- Evaluation of the impact study, problems, challenges, solutions
- Discuss the action plan for the final conference
- Each partner makes a plan of approach to his task in terms of who, what when
- Making the next appointments
- Conclusion

Project dissemination → project result Product dissemination → product result
--

• **Dissemination:**

- Commercial information (leaflet)
- Leaflet; letter of invitation
- Websites
- Article: Why the project started? What we have done?
- Movie (made by Deltion students)
- Press conference & final conference
 - Show project
 - Show project results

P3: will invite for the final conference 2 VET Schools, SEAT, NISSAN

P2: Deltion teachers, article in the most important newspaper (46 colleges receive articles), brochure on the website

The final conference in Budapest (3 October 2013, 10:00-15:00)

Content of the conference	Target groups
<ul style="list-style-type: none"> • Introduction • Experience with the project • Outcome of the project • Sustainability • Workshops • Summary / Conclusion <p>Goal: trigger the target group to want to learn more about The LB</p>	<p>Hungary:</p> <ul style="list-style-type: none"> • Minister of education Hungary • Minister of national economy Hungary (1p) • Institution Klebersberg (new organisation for state schools) (2p) • Other technical schools HU (8p) • Chamber of commerce (1p) • Training centres (Tambuz etc) • Association (5p) • Teachers (Automotive & others) (15p) • European Commission (2p) • Press (2p) <p>Netherlands:</p> <ul style="list-style-type: none"> • Invitees from Deltion College (4p) • LearningSolutions (3p) <p>Spain:</p> <ul style="list-style-type: none"> • 2 Spanish VET schools (4p) • 2 Nissan Automotive Plants • SEAT

- Invite to the **final conference in Budapest:**
Companies: EU projects, internationals
- **Final presentation in Budapest**
Make a plan (quality management & project management):
 - What has been done?
 - What still needs to be done?
 - Who will come?

Final Conference 3. October 2013.

Place	Date	Time
Budapest	3. October 2013	10:00 – 15:00

To invite somebody from the ministry or Klebelsberg to give a speech. Innovative educational model. Innovation in Education.

Infopack for Conference Invitation:

Article – will be written by P0 and will be corrected by P2
Invitation letter – will be written by P0 and be corrected by P2
Flyer in English and HU language

Education and Culture DG

Lifelong Learning Programme

Project Acronym: LearningBox
Project Nr.: LLP-LdV-TOI-2011-HU-006

Topics:

1. Presentation about the project - What we wanted to reach in 2011 and how far we are? What we have reached? some reflections, what is the innovation
2. What are the effects of the project? – How many students we have reached, how, what are the feedbacks?
3. Pilot testing and impact study results – satisfaction
4. Sustainability: why is it good, useful, what they can reach by using the LB
5. Why we have done it within an international project? What are the benefits of this international project? Common European situation about the e-learning systems

Agenda of the Conference

09:30 – 10:00 Reception

10: 00 – 10:30 Welcome by EC, presentation about the project

10:30 – 12:00 Interview – forum (Omneon, Deltion, ECE, Lukács, EBCL HU, somebody by Klebelsberg Association, Chamber of Commerce – lead by moderator)

12:00 – 13:30 During little lunch: 3 workshops - round table conversation led by moderators

- o Experiencing The LearningBox (with laptops and projector), led by Miklós
- o ICT in Education by expert (What would be after 10 years? – how The LearningBox is fitting in it?) by ICT professor giving lecture of 1 hour
- o Hungary 2020 - Shift happens (video session YouTube video – shift happens)

13:30 – 14:10 Summarizing and Sustainability (what LB is doing in the Future, new project, etc. by EBCL and Omneon)

14:10 – 15:00 Networking

Planning, next tasks: (Gantt diagram has been sent to all partners)

Responsible	Action	Final Deadline
Krisztián Sován, Tanbusz	Provide a list of teachers can be involved after the project period - Database	05. August 2013
Krisztián Sován, Tanbusz	Last questionnaires for the participants of the impact study	12. July 2013
Krisztián Sován	To collect 3 Summaries from the testing schools	24. July 2013
Krisztián Sován, Tanbusz	Test for the participants of the impact study	12. July 2013
Krisztián Sován	Report of the impact study in English – theoretical part – send to PO	24. July 2013
Tanbusz	Report of the impact study in English – practical part – send to PO	24. July 2013
Lieke Michielsen	Type out the partner meeting notes	15. July 2013
EBC *L Magyarország	Sending the 3 summaries and the 2 reports to Alexander and to all the other partners	24. July 2013
Alexander Cavallar	Check the results of the pilot testing (questionnaires)	29. July 2013
Alexander Cavallar	Check the results of the impact study (questionnaires)	29. July 2013
Omneon	Sending to PO and to P3 (Alexander) the results of the 2nd	15. July 2013

Education and Culture DG

Lifelong Learning Programme

Project Acronym: LearningBox
Project Nr.: LLP-LdV-TOI-2011-HU-006

	questionnaires round	
Alexander	Analysis of the 2nd round of questionnaires and report of the two questionnaires rounds	29. July 2013
Omneon	Statement that the Hungarian LB beta version is ready on the 01.05.2013 and after what we have improved on the basis of the pilot testing and impact study results	31. July 2013
EBC*L Magyarország	Creation of an article and send to Deltion for correction	19. July 2013 DONE
EBC*L Magyarország	Creation of pre announcement - invitation letter for the conference	16. August 2013
EBC*L Magyarország	Invitation letter - final	02. September 2013
EBC*L Magyarország	Send the English flyer and brochure to Deltion for correction	12. July 2013 DONE
Deltion	To correct the English translation of the flyer and brochure	26. July 2013
Deltion	To correct the article	26. July 2013
Deltion	To correct the invitation letter	21. August 2013
EBC*L Magyarország	Send the corrected article and English flyer, brochure to all partners	29. July 2013
All Partners	Partners upload the English flyer and brochure on their website	31. July 2013
EBC*L Magyarország	Send the corrected pre-invitation letter to all partners	23. August 2013
All Partners	Invite stakeholders to the Conference	26. August 2013
Deltion	Video – Has to be ready by the final conference	1st or 2 nd week of September 2013
All the partners	Sent all the files and pictures relevant to the project to P0 for the project documentation.	12. July 2013
All partners	To send all financial documentation to P0 about the period of November 2012 – April 2013	31. July 2013

13:30-14:30 **Lunch in Restaurante Síbarits, c.Guillermo Tell, 32**

Official end of the meeting.
