30 games for mobile phones about how to promptly answer to non routine situations at work.

E-HOW FOR COOPERATIVE LEARNING
An online community and a wiki for sharing ideas on how to use non routine skills.

SCENARIOS AND GUIDELINES
Scenarios and guidelines on how mobile technologies can be used for teaching, learning and empowering within SMEs.

AVAILABLE SERVICES

INTOUCH aims to calibrate an innovative approach enabling new generations of workers to develop their crucial non routine skills – in a labour market oriented, flexible, and technological innovative way – according to the new exigencies of the labour market. Following the "New Skills for New Jobs" strategy, the partners will design an ad hoc innovative m-learning kit for working adults about crucial "non-routine" Skills, exploiting the new technologies of smart-phones for creating open and mobile didactical environments. INTOUCH will bring mobile learning into SMEs everyday learning settings and improve interaction and collaboration, providing SMEs employees with key skills they need to answer to labour market requests and to deal with the transformations taking place in the economy.
