

# WANTED!

## Ambitious students who are looking for an industry mentor.

Did you know that most successful citizens, entrepreneurs and business people had a mentor? Having a industry mentor that guided them along the way made them achieve their goals.

“When I started my career, Maradona told me ‘to enjoy and play as you know’, the best advice I’ve ever been given!”  
*Lionel Messi*

**Curious?** Get involved in the SUPREME Mentor Programme and see for yourself how an industry mentor will help you move forward, both personally and in your career.

# Role models **Mentoring** Networking

**The SUPREME mentor program enables you to come into contact with a successful person to talk about you and your future ambitions.**

How did he or she achieve their goals and how did they get to where they are today? An industry mentor will help you to determine what it is you want, help you set your goals and then achieve them.

**Step 1: Intake.** First you will have an intake interview with the SUPREME mentoring team at your school. In an informal conversation you will get acquainted with each other. Then with the SUPREME mentoring team, you will determine what it is you want to achieve with mentoring, both for your (school)career and for you as a person.

**Step 2: Connecting you to a mentor.** Based on the intake interview, the SUPREME mentoring team in your school will search for a suitable mentor for you. They will find a person that not only will support you to achieve your goals but also someone that is right for you personally and to whom you feel connected. A good match is the key for a successful mentorship!

**Step 3: First meeting with mentor.** The SUPREME mentoring team will make an appointment to introduce you to your mentor. Here you both express your goals and expectations. Then an appointment will be made for the first mentoring meeting between you and your mentor.

**Step 4: Let the mentoring begin!** Now the actual mentoring process starts. With your mentor, you talk about day-to-day experiences and you will learn how the mentor achieved his or her goals. You also determine practical issues like how often you want to meet, etc.
