

Training to help everyone learn the right skills to get a job

Training Room

Easy read

About us

We are called **Investt**.

We are lots of different groups who

- support people with disabilities

College

- teach in places like school, college or university.

We think people with disabilities should have a fair chance of getting a job, just like anyone else.

We are doing some work to make sure this happens.

This leaflet tells you more about what we are doing.

What we want

We want to train people. This helps them learn the right skills so they can get a job.

They can have training to learn how to do things like

- cooking

- office work

- gardening.

We want to make sure this training works for everyone. For example people with disabilities.

The rest of this leaflet tells you what we are doing to make this happen.

What we want to do

1. Help schools to teach all their students the right skills

2. Ask work places what skills they want people to have to work for them

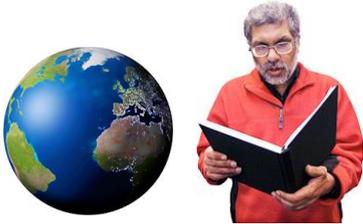

We want to tell schools these things so they know what to teach people.

The rest of this leaflet says how we are going to do these things.

What we are working on

1. Information for lots of different countries

The information will help countries make sure their training gives everyone a fair chance of getting a job.

2. Training in countries we are working with

It will be about what schools can do to make sure people with disabilities can take part in the training.

The training can be changed to make sure it works for different schools.

3. Groups where people can talk about work like this

4. Information on the internet

It will be about training everyone can take part in.

How to find out more

You can find out more about the work we are doing by

- going on our website. It is here www.investt.eu
- emailing us at info@investt.eu
